SUPPLEMENTARY INFORMATION: The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and the complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together as CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint State-Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balanced plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term

solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice to CALFED on the program mission, problems to be addressed, and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff.

Minutes of the meeting will be maintained by the Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

Dated: October 5, 1999.

INTERNATIONAL TRADE COMMISSION

[Inv. No. 337-TA-409]

Notice of Commission Determination Not To Review an Initial Determination Declassifying a Motion

In the Matter of Certain CD-ROM Controllers and Products Containing the Same—II.

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's ("ALJ's") initial determination ("ID") of August 31, 1999, declassifying a motion in the above-captioned investigation.

FOR FURTHER INFORMATION CONTACT: Tim Yaworski, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436, telephone 202-205-3096. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on May 13, 1998, based on a complaint filed by Oak Technology, Inc. ("Oak"). 63 FR 26625 (1998). The complaint

named four respondents: MediaTek, Inc., United Microelectronics Corporation ("UMC"), Lite-On Technology Corp., and AOpen, Inc. Actima Technology Corporation, ASUSTek Computer, Incorporated, Behavior Tech Computer Corporation, Data Electronics, Inc., Momitsu Multi Media Technologies, Inc., Pan-International Industrial Corporation, and Ultima Electronics Corporation were permitted to intervene in the investigation.

In its complaint, Oak alleged that respondents violated section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, by importing into the United States, selling for importation, and/or selling in the United States after importation electronic products and/or components that infringe claims of U.S. Letters Patent 5,581,715.

On August 10, 1999, the ALJ issued a recommended determination ("RD") in which he recommended that the Commission impose sanctions on complainant Oak and its legal counsel, the law firm of Howrey & Simon ("Howrey"), for violation of Commission rule 210.4 (19 CFR 210.4). Oak and Howrey subsequently moved the ALJ to delay issuance of the public version of the sanctions RD until the Commission had had an opportunity to determine whether to adopt it. The ALJ denied the Oak/Howrey motion in Order No. 18 issued on August 31, 1999. Included in Order No. 18 was an ID (Order No. 18, p. 2, fn. 1) declassifying the Oak/Howrey motion. No petitions for review of the ID were filed.

This action is taken under the authority of section 337 and section 210.42 of the Commission's Rules of Practice and Procedure, 19 CFR 210.42.

Copies of the public version of the subject ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436, telephone 202-205-2000.

By order of the Commission.

Issued: October 6, 1999.

Donna R. Koehnke,

Secretary.
