(IV) Implementation Interview Protocol

This protocol is designed to obtain detailed information from a subsample of AmeriCorps*NCCC projects while they are in operation. Topics addressed include changes in project activities or objectives since the project was approved and rationales for those changes, document the activities being conducted by the project and by others directed toward project activities, document the types and amounts of resources being expended in support of the AmeriCorps*NCCC project team, sponsors' and other community representatives' assessments of project quality, document accomplishments of the project at the time of the interview relative to project plans, and obtain sponsors' and other community representatives' assessments of effective implementation practices. This information will be used directly in the analysis of the community impacts of the AmeriCorps*NCCC projects visited for these interviews in combination with the Pre-project Sponsor Survey, Post-project Sponsor Survey, and Post-project Community Survey. The information will also be compared to the information from the same projects generated by the surveys to ensure the validity of the information collections. The information also will be used to inform the general analysis of all survey data, particularly in seeking effective practices and explanations for different levels of project impacts.

DEPARTMENT OF ENERGY

Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Subsequent arrangement.

SUMMARY: This notice is being issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing a notice of a proposed "subsequent arrangement" under the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the United States of America and the European Atomic Energy Community (EURATOM) and the Agreement for Cooperation Between the Government of the United States of America and the Government of the People's Republic of China Concerning the Peaceful Uses of Nuclear Energy.

The subsequent arrangement concerns approval of RTD/PC(EU)–1 for the retransfer of 32,574 grams of slightly irradiated fuel spheres containing 5,456.145 grams of the isotope U–235 (16.76 percent enrichment) from EURATOM (Germany) to the People's Republic of China for use as research material in the 10 megawatt High Temperature Gas-cooled Reactor (HTR–10) which is being constructed at the Institute of Nuclear Energy Technology (INET) in Beijing, China.

The material was originally transferred from Germany to Switzerland as RTD/SD(EU)–59 for fabrication into graphite coated fuel spheres and returned to Germany as RTD/EU(SD)–1.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: October 8, 1999.
