[Docket No. RP00-17-000]

**Transcontinental Gas Pipe Line Corporation; Notice of Tariff Filing**

October 13, 1999.

Take notice that on October 6, 1999, Transcontinental Gas Pipe Line Corporation tendered for filing, on a pro forma basis, certain revised tariff sheets to its FERC Gas Tariff, Third Revised Volume No. 1, which tariff sheets are enumerated in Appendix A attached to the filing. Although Transco proposes that the revised tariff sheets be made effective upon the in-service date of Transco's new service delivery computer system, Transco requests that the Commission act on the filing no later than November 15, 1999.

Transco states that it is submitting the filing pursuant to Section 4 of the Natural Gas Act (NGA) to propose revisions to Section 42.3 of the General Terms and Conditions of Transco's tariff, and Section 2.8 of Rate Schedule FT, Section 2.4 of Rate Schedule FT-R, Section 2.5 of Rate Schedule FTN and Section 2.4 of Rate Schedule FTN-R. Specifically, Transco proposes to revise Section 42.3 of the General Terms and Conditions to provide that where a shipper elects to release a segment of its firm capacity entitlement in a zone and to retain a segment of its firm capacity entitlement in that zone, the sum of the scheduled quantities within that zone by that Releasing Shipper and any Replacement Shipper from or to firm secondary receipt and delivery points within any segment of that zone shall be limited to the level of the original firm capacity entitlement in that zone from which the Releasing Shipper's and the Replacement Shipper's firm capacity entitlement was derived. Conforming changes have been made to Section 2.8 of Rate Schedule FT, Section 2.4 of Rate Schedule FT-R, Section 2.5 of Rate Schedule FTN and Section 2.4 of Rate Schedule FTN-R, which address access to secondary receipt and delivery points within a zone, in order to recognize the limitation associated with released firm capacity entitlements.

Transco states that the tariff modifications are necessary in order to eliminate a practice by which certain shippers take advantage of the current flexibility under Transco's tariff for the purpose of creating firm contract rights in a zone that exceed the firm contract entitlements of those shippers through segments of capacity on the Transco pipeline system. That practice is

accomplished through the use of segmentation rights granted under Transco's capacity release program and the flexible secondary receipt and delivery point rights granted under Transco's Rate Schedules FT and FT-R. The result is that shippers employing that practice obtain more than the rights to capacity in a segment of a zone that they are entitled to through payment of a reservation rate for that zone, a result that the Commission recently has affirmed exceeds Commission requirements and policy. Transco submits that the effect of this practice is to diminish in the value that firm capacity holders can receive for released capacity on the Transco system.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. **Trunkline LNG Company; Notice of Proposed Changes, in FERC Gas Tariff**

October 13, 1999.

Take notice that on October 6, 1999, Trunkline LNG Company (TLNG) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1-A, the revised tariff sheets listed on Appendix A attached to the filing, to be effective November 15, 1999.

TLNG states that the purpose of this filing, made in accordance with the provisions of Section 154.204 of the Commission's Regulations, is to: (1)

Update the General Terms and Conditions and the Form of Service Agreements for address and telephone number changes; (2) delete the prefix in the date area of the Form of Service Agreements to be Y2K compliant; and (3) update the marketing affiliate information in the General Terms and Conditions Section 17 as necessitated by the acquisition of TLNG by CMS Energy Corporation.

TLNG states that copies of this filing are being served on all affected customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. [Docket No. RP99-257-003]

#### Williams Gas Pipelines Central, Inc.; Notice of Proposed Changes in FERC Gas Tariff

October 13, 1999.

Take notice that on October 1, 1999, Williams Gas Pipelines Central, Inc. (Williams), tendered for filing to become part of its FERC Gas Tariff, Original Volume No. 1, the following tariff sheets, with the proposed effective date of November 1, 1999:

Eleventh Revised Sheet No. 6  
Fourteenth Revised Sheet No. 6A

Williams states that pursuant to the Offer of Settlement (Settlement) filed July 18, 1999 in the above referenced

dockets, Williams is filing to discontinue the Rate Schedule FTS surcharges and the GSR component of the maximum ITS rate established in Docket Nos. RP99-257, et al. Article I, Section D of the Settlement provides that all Commission dockets in which Williams' GSR costs are at issue shall be concluded and terminated by the Commission's approval of the Settlement. Article III, Section A provides that the Settlement shall become effective "on the first day of the first month commencing at least 30 days after a Commission order approving [the Settlement] becomes no longer subject to rehearing or appeal." By order issued August 30, 1999, the Commission approved the Settlement. No requests for rehearing of the order have been filed, therefore the order is final and the Settlement is effective November 1, 1999.

Williams states that a copy of its filing was served on all participants listed on the service lists maintained by the Commission in the dockets referenced above and on all of Williams' jurisdictional customers and interested state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-222 for assistance).

#### Southern LNG Inc.; Notice of Public Scoping Meeting and Site Visit, Elba Island Terminal Recommissioning Project

October 13, 1999.

On November 2, 1999, at 6:00 p.m., the Office of Pipeline Regulation environmental staff will conduct a public scoping meeting for the proposal by Southern LNG Inc. (Southern LNG) in its Elba Island Terminal Recommissioning Project in Savannah, Georgia. The meeting will be held at the Eli Whitney Elementary School, 2 Laura Street, Savannah, Georgia.

The public meeting will be designed to give more detailed information and another opportunity to offer comments on the proposed project. Interested groups and individuals are encouraged to attend the meeting and present oral comments on the environmental issues which they believe should be addressed in the environmental assessment. A list will be available at the public meeting to allow speakers to sign up. Priority will be given to those persons representing groups. A transcript of the meeting will be made so that your comments will be accurately recorded.

On November 3, 1999, at 8:30 a.m., the Commission's staff will meet with representatives of Southern LNG to
