## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP98-133-003]

#### Vector Pipeline L.P.; Notice of Amendment

October 14, 1999.

Take notice that on October 4, 1999, Vector Pipeline L.P. (Vector), 2900 421-7th Avenue SW, Calgary, Alberta, Canada T2P 4K9, filed in Docket No. CP98-133-003 an application pursuant to Section 7(c) of the Natural Gas Act for an amendment to its certificate of public convenience and necessity previously issued by the Commission on May 27, 1999, in Docket No. CP98-133-000, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

The Commission's May 27, 1999 order authorized, among other things, the construction and operation of a pipeline from Joilet, Illinois to the U.S.-Canada border near St. Clair, Michigan. Vector states that the May 27, 1999 order also certificated the "Milford" Compressor Station site; although, the Final Environmental Impact Analysis found that either the proposed "Milford" site or "Alternate Site 2", both located in Oakland County, Michigan, would be acceptable as a site for construction of the compressor station.

Specifically, Vector seeks authorization to move the site of the construction of the subject compressor station from the "Milford" site to "Alternate Site 2" (which Vector has re-named as the "Highland" site). Vector states that it has negotiated a purchase agreement for the "Highland" site, thereby obviating the need for eminent domain. Vector further states that shifting the compressor station site from "Milford" to "Highland" does not impair Vector's ability to meet its design requirements, although the shift will result in additional costs that will increase Vector's recourse rate by approximately \$0.002 per Dth on a unit basis.

Vector also requests that Ordering Paragraph (E) of the May 27, 1999 order be amended to impose the two-year

construction completion/in-service condition, as it applies to this amended compressor station site, from the date of the final order on this amendment application.

Any question regarding this amendment should be directed to Ned Hengerer, Counsel for Vector Pipeline L.P., John & Hengerer, 1200 17th Street, NW, Suite 600, Washington, DC 20036 at (202) 429-8811.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 28, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, NW, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party in any proceeding herein must file a motion to intervene in accordance with the Commission's rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the

Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Vector to appear or to be represented at the hearing.

**David P. Boergers,**

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. EC00-2-000, et al.]

#### Louisville Gas and Electric Company, et al.; Electric Rate and Corporate Regulation Filings

October 12, 1999.

Take notice that the following filings have been made with the Commission:

##### 1. Louisville Gas and Electric Company, Kentucky Utilities Company

[Docket No. EC00-2-000]

Take notice that on October 5, 1999, Louisville Gas and Electric Company (LG&E) and Kentucky Utilities Company (KU) tendered for filing, pursuant to Section 203 of the Federal Power Act, 16 U.S.C. 824(b) (1999), and Part 33 of the Commission's regulations, 18 CFR part 33, an Application for approval of the disposition of their joint interests in certain combustion turbine units and related transmission facilities through a sale/leaseback transaction with a foreign entity, and for the waiver of certain filing requirements under Part 33 of the Commission's regulations.
