

12. Broad River Energy LLC

[Docket No. ER00-39-000]

Take notice that on October 5, 1999, Broad River Energy LLC (Broad River), tendered for filing information related to its market-based rate application also filed on this date. This information consists of an organizational chart listing all the entities affiliated with Broad River and its direct and upstream owners. Broad River requested confidential treatment of the organizational chart pursuant to 18 CFR 388.112.

Comment date: October 25, 1999, in accordance with Standard Paragraph E at the end of this notice.

13. Broad River Energy LLC

[Docket No. ER00-38-000]

Take notice that on October 5, 1999, Broad River Energy LLC (Broad River), tendered for filing an application for waivers and blanket approvals under various regulations of the Commission and for an order accepting its FERC Electric Rate Schedule No. 1. Additionally, Broad River has tendered for filing a power purchase agreement (PPA) between it and Carolina Power & Light Company. Broad River proposes that its Rate Schedule No. 1 and its sales under the PPA become effective upon commencement of service of the Broad River Energy Center (the Facility), a generation project currently being developed by Broad River in the State of South Carolina. The Facility will not be commercially operable until June, 2000.

Broad River intends to sell energy and capacity from the Facility pursuant to the terms of the PPA and other agreements at market-based rates, and on such terms and conditions to be mutually agreed to with the purchasing party.

Agency Information Collection Activities: Submission for OMB Review; Comment Request, Standards of Performance of Volatile Organic Compound (VOC) Emissions From the Synthetic Organic Chemical Manufacturing Industry (SOCMI), Air Oxidation Unit Processes; and Distillation Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance of Volatile Organic Compound (VOC) Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI), Air Oxidation Unit Processes; and Distillation Operations OMB Control Number 2060-0197, expiration date 12/31/99. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 19, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0998.06.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance of Volatile Organic Compound (VOC) Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI), Air Oxidation Unit Processes, Subpart III, and Distillation Operations, Subpart NNN; OMB Control No. 2060-0197; EPA ICR No. 0998.06, expiration 12/31/99. This is a request for an extension of a currently approved collection.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR 60.610, subpart III, Standards of Performance for VOC Emissions from SOCMI Air Oxidation Unit Processes and 40 CFR 60.660, subpart NNN, Standards of Performance for VOC from SOCMI Distillation Operations. This information is used by the Agency to identify sources subject to the standards and to insure that the best demonstrated technology is being properly applied. The standards require periodic recordkeeping to document process information relating to the sources' ability to meet the requirements of the standard and to note the operation conditions under which compliance was achieved.

In the Administrator's judgment, VOC emissions from SOCMI air oxidation unit processes and distillation operations cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NSPS were promulgated for this source category. Owners or operators of the affected facilities described must make the

following one-time-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; notification of the date of the initial performance test; and the results of the initial performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are required, in general, of all sources subject to NSPS.

An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 06/04/99 (64 FR 30011); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 50 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of the Synthetic Organic Chemical Manufacturing Industry

Estimated No. of Respondents: 2,767
Frequency of Response: Semiannual
Estimated Total Annual Hour Burden: 278,687 hours.

Estimated Total Annualized Capital, O&M Cost Burden:

Send comments on the Agency's need for this information, the accuracy of the

provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0998.06 and OMB Control No. 2060-0197 in any correspondence.

ENVIRONMENTAL PROTECTION AGENCY

[Docket No. A-99-31; FRL-6459-3]

List of Source Categories

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of receipt of a complete petition.

SUMMARY: This notice announces that EPA has created a two-piece beer and beverage can coating (two-piece can) subcategory within the Metal Can (Surface Coating) source category. This notice also announces the receipt of a complete petition from the Can Manufacturers' Institute (CMI) requesting EPA to remove the two-piece can subcategory from the List of Source Categories (Source Category List). The Source Category List was developed pursuant to section 112(c)(1) of the Amendments to the 1990 Clean Air Act (Act) and published in the **Federal Register** on July 16, 1992 (57 FR 31576).

We have determined that the original petition submittal by CMI, dated November 4, 1996, plus the supplemental materials provided by CMI through April 21, 1999, will support an assessment of the human health impacts associated with hazardous air pollutant (HAP) emissions from two-piece can coating operations. In addition, the data submitted by CMI will support an assessment of the environmental impacts associated with HAP emissions from the two-piece can coating subcategory. Consequently, we have concluded that CMI's petition is complete as of April 21, 1999, the date
