

DEPARTMENT OF COMMERCE**Patent and Trademark Office****Performance Review Board**

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Announcement of membership of the Patent and Trademark Office Performance Review Board.

SUMMARY: In conformance with the Civil Service Reform Act of 1978, 5 U.S.C. 4314(c)(4), the Patent and Trademark Office announces the appointment of persons to serve as members of its Performance Review Board.

ADDRESSES: Comments should be addressed to Director, Office of Human Resources, Patent and Trademark Office, One Crystal Park, Suite 707, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT: Alethea Long-Green at the above address or telephone (703) 305-8062.

SUPPLEMENTARY INFORMATION: The membership of the Patent and Trademark Office Performance Review Board is as follows:

Stephen C. Browning, Chair, Acting Associate Commissioner and Chief Financial Officer, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2001

Janice A. Howell, Director, Patent Examining Group, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2001

Jin F. Ng, Director, Patent Examining Group, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2000

Albin F. Drost, Acting Solicitor, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2001

Robert M. Anderson, Deputy Assistant Commissioner for Trademarks, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2001

Gerald R. Lucas, Director, Eastern Administrative Support Center, Department of Commerce, Norfolk, VA 23510, Term—expires September 30, 2001

Robert F. Kugelman, Director, Office of Budget, Department of Commerce, Washington, DC 20230, Term—expires September 30, 2001

H. Dieter Hoinkes, Deputy Administrator for Legislative and International Affairs, Patent and Trademark Office, Washington, DC 20231, Term—expires September 30, 2001

Dated: October 7, 1999.

Q. Todd Dickinson,

Acting Assistant Secretary of Commerce and Acting Commissioner of Patents and Trademarks.

BILLING CODE 3510-16-M

DEPARTMENT OF ENERGY**Office of Science; Fusion Energy Sciences Advisory Committee Renewal**

Pursuant to section 14(a)(2)(A) of the Federal Advisory Committee Act (FACA) Pub. L. 92-463, and section 101-6.1015, title 41 Code of Federal Regulations, and following consultation with the Committee Management Secretariat, General Services Administration (GSA), notice is hereby given that the Fusion Energy Sciences Advisory Committee has been renewed for a two-year period beginning October 1999. The Committee will provide advice to the Department on long-range plans, priorities, and strategies for demonstrating the scientific and technological feasibility of fusion energy.

The renewal of the Fusion Energy Sciences Advisory Committee has been determined to be essential to the conduct of the Department's business and in the public interest in connection with the performance of duties imposed upon the Department of Energy by law. The Committee will continue to operate in accordance with the provisions of the FACA, the GSA regulation on Federal Advisory Committee Management, and other directives and instructions issued in implementation of those acts.

Further information regarding this advisory committee can be obtained from Ms. Rachel Samuel at (202) 586-3279.

Issued in Washington, DC on October 8, 1999.

James N. Solit,

Advisory Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Bonneville Power Administration****Fish and Wildlife Implementation Plan**

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to prepare an environmental impact statement (EIS).

SUMMARY: Throughout the Pacific Northwest region there are several

ongoing processes to develop plans and programs for the management, recovery, and mitigation of the Columbia River Basin's fish and wildlife resources. These plans and programs will help to shape a regional fish and wildlife policy direction that will guide BPA's mitigation and recovery efforts, including its funding, for the next decade or more. BPA expects to shift its fish and wildlife spending accordingly. BPA currently funds over 70 percent of the fish and wildlife mitigation and recovery efforts on behalf of the Federal Columbia River Power System (FCRPS). Consequently, BPA has a responsibility to understand the impacts of those efforts and to ensure it can fund them efficiently. Therefore, BPA intends to prepare an EIS that examines the impacts that may arise from implementing one of the fish and wildlife policy directions reflected in the alternatives being considered in the ongoing regional processes. BPA will coordinate the scoping meetings and comment processes for this EIS with the other ongoing regional processes. However, BPA is preparing this EIS for its own purposes, and the EIS is not a predicate for decisions by other Federal agencies.

DATES: BPA will establish a 30-day scoping period during which all interested and affected persons and agencies are invited to comment on the scope of BPA's proposed Fish and Wildlife Implementation Plan EIS. Scoping will help BPA ensure that a full range of issues related to the implementation of its fish and wildlife duties are addressed in the EIS, and also will identify significant or potentially significant impacts that may result from implementation of such a new plan. A Notice of Scoping Meeting(s) will be published in the **Federal Register**. That notice will announce the date(s) and location(s) of the scoping meeting(s) and provide specific information on the close of the scoping period.

When completed, the Draft EIS will be circulated for review and comment, and BPA will hold public comment meetings for the Draft EIS. BPA will consider and respond to comments received on the Draft EIS in the Final EIS.

ADDRESSES: BPA invites comments and suggestions on the proposed scope of the Draft EIS. Send comment letters, and requests to be placed on the project mailing list, to Communications, Bonneville Power Administration—KC-7, PO Box 12999, Portland, Oregon, 97212. The phone number of the Communications office is 503-230-3478 in Portland; toll-free 1-800-622-4519

outside of Portland. Comments may also be sent to the BPA Internet address: comment@bpa.gov.

FOR FURTHER INFORMATION, CONTACT: Charles C. Alton, Project Manager, KEC-4, Bonneville Power Administration, PO Box 3621, Portland, Oregon, 97208-3621; phone number 503-230-5878; fax number 503-230-5699.

SUPPLEMENTARY INFORMATION: BPA markets electric power from 29 hydroelectric dams operated by the United States Army, Corps of Engineers (Corps); and the United States Department of the Interior, Bureau of Reclamation (BoR), in the Pacific Northwest (Idaho, Montana, Oregon, and Washington). Part of the power-marketing responsibility includes complying with the laws meant to protect the environment. In the last two decades, BPA has spent over \$2 billion collected from its ratepayers on measures to mitigate and recover fish and wildlife. BPA currently spends approximately \$252 million annually, plus there are lost power opportunities and operational costs.

Under the Pacific Northwest Electric Power Planning and Conservation Act (Northwest Power Act), BPA has duties: (1) To protect, mitigate, and enhance fish and wildlife adversely affected by the construction and operation of the FCRPS, and (2) to do so in a manner that provides equitable treatment for such fish and wildlife with the other purposes of the FCRPS. Under the Endangered Species Act (ESA), BPA has duties to avoid jeopardy to species listed under ESA and to aid in the recovery of those species. BPA's mitigation and recovery expenditures are typically in fulfillment of these Northwest Power Act and ESA duties.

BPA expects that the entities that help guide its expenditures for mitigation and recovery will recommend changes in BPA's spending regime and programs. These recommendations could include eliminating some current mitigation projects, significantly modifying others, and initiating whole new projects. These changes in priorities may require reexamination of the impacts BPA enables through its fish and wildlife funding. Therefore, BPA is initiating an EIS to study the environmental impacts that may arise from BPA's implementation of the alternatives being considered in the other regional processes currently underway. The EIS will provide a broad-based comparison of the impacts associated with these alternatives.

The first regional process to develop alternatives that may affect the implementation of BPA's fish and

wildlife duties is the Multi-Species Framework Project (Framework) which is managed collaboratively by the Northwest Power Planning Council (States), Federal agencies, and Tribes. The Framework is developing a set of alternatives for future economic and natural resource management of the basin. The EIS will consider the biological, social, and economic effects of those alternatives.

The other major Federal decision-making processes that may affect BPA's fish and wildlife duties are those associated with planning for future operations of the FCRPS, National Forest Planning activities, and plans for operation of fish hatcheries and regulation of fish harvests. Nine Federal agencies are involved in various aspects of these management activities affecting the Columbia River—the National Marine Fisheries Service, the Corps, the BoR, BPA, the Environmental Protection Agency, the Fish and Wildlife Service, the Bureau of Indian Affairs, the Forest Service, and the Bureau of Land Management. BPA is also participating in ESA consultations that will lead to a decision in the year 2000 regarding how to structure and operate the FCRPS. That decision will not be considered in the EIS here being proposed. The National Environmental Policy Act documentation for that decision has already been or is currently being prepared in a separate process.

In addition to the Framework and Federal Caucus processes, there are numerous other actions related to the development and implementation of BPA's fish and wildlife implementation plan. These actions include studies to address water quality issues in the Columbia and Snake Rivers, various salmon restoration plans, and a review of artificial (hatchery) production. Still other processes may be identified during scoping. This EIS will use information from these efforts in its analysis.

Need for the EIS

BPA intends to reexamine the assumptions underlying its current fish and wildlife implementation plan. The purpose of the EIS is to compare the status quo implementation plan with alternatives derived from the other regional processes in an attempt to find a better way to achieve greater administrative efficiency, biological effectiveness, and cost-effectiveness while providing health and stability for the environment and economy.

Issued in Portland, Oregon, on October 8, 1999.

J. A. Johansen,

Administrator and Chief Executive Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP99-480-002]

Texas Eastern Transmission Corporation; Notice of Compliance Filing

October 14, 1999.

Take notice that on October 7, 1999, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, the following revised tariff sheets to be effective September 23, 1999:

Second Sub Second Revised Sheet No. 456
Third Revised Sheet No. 462

Texas Eastern states that the sole purpose of this filing is to comply with the Commission's letter order in Docket Nos. RP99-480-000 and 001 dated September 22, 1999 accepting Texas Eastern's August 23, 1999 filing, to include in its tariff a negotiated rates provision pursuant to the Alternative Rates Policy Statement [74 FERC 61,076 (1996)]. Texas Eastern states that the revised tariff sheets modify the net present value evaluations in Sections 3.12(A)(1) and 3.13(E) of the General Terms and Conditions of its tariff as required by the Commission in the September 22, 1999 letter order.

Texas Eastern states that copies of its filing have been mailed to all affected customers and interested state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protest must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/>
