Aquenergy Systems, Inc.; Notice of Availability of Draft Environmental Assessment

October 15, 1999.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, the Office of Hydropower Licensing has reviewed the application requesting the Commission's authorization to surrender the license for the existing Apalache Hydroelectric Project, located on Trinity Alps Creek in Trinity County, California, and has prepared a Draft Environmental Assessment (Draft EA) for the proposed action.

In the Draft EA, Commission staff concludes that approval of the subject surrender of license would not produce any significant adverse environmental impacts; consequently, the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the Draft EA can be viewed at the Commission's Public Reference Room, Room 2A, 888 First Street, NE, Washington, DC 20426, or by calling (202) 208-1371. The Draft EA also may be viewed on the Web at www.ferc.fed.us/online/rims.htm. Call (202) 208-2222 for assistance.

Notice Terminating "TM" Docket Prefix

October 15, 1999.

On November 10, 1987, the Commission issued a final rule (Order No. 483) that amended its Regulations governing the procedures by which a natural gas pipeline company may recover the cost of purchased gas from their customers. The Commission established several docket prefixes for the various rate adjustments permitted pursuant to the Purchased Gas Adjustment Provisions of the FERC Gas Pipeline Tariffs. In particular, a "TM" prefix was created as a "Miscellaneous tracking adjustments (i.e., GRI's ACA's, transportation and storage trackers, etc. when not accompanied by the quarterly or annual PGA filings."

In the interest of administrative efficiency and the Commission's recent migration to a new computer tracking system, FERC Automated Management Information System (FAMIS), the TM prefix is discontinued and terminated effective immediately. In the future, any filing that would have received a TM prefix will receive the currently used prefix of RP.
