for such purposes. Accordingly, the Commission is terminating these dockets.

### Docket No. RM91-13-000

On April 30, 1991, in Docket No. RM91-13-000, the Illinois Commerce Commission filed a petition for a rulemaking to address the extent to which local distribution companies (LDCs) should be shielded from the passthrough of interstate pipelines' take-or-pay obligations as a means of providing the LDCs with relief from bypass by interstate pipelines. The Commission's bypass policy has been developed in individual cases, and the issues raised in the petition have been largely resolved. Accordingly, the Commission is terminating rulemaking Docket No. RM-13-000.

<sup>4</sup> Data collected by the Energy Information Administration (EIA) and summarized in its June 1999 publication on "Natural Gas 1998, Issues and Trends" (EIA report), shows that as the result of the Commission's open access program, almost all natural gas is now purchased directly from producers with pipelines principally providing transportation services for their customers. Further, the Form 2 data that the Commission requires pipelines to file shows that pipelines' gas sales have steadily decreased to relatively minimal volumes since the Commission initiated its open access program in 1985.
