

SUPPLEMENTARY INFORMATION: The following proposed collection of information has been sent to OMB for clearance:

Title: U.S. Department of Energy/ Annual Alternative Fueled Vehicle Acquisition Report for State Government and Alternative Fuel Provider Fleets.

OMB Control Number: 1910-5101.

Type of request: Revised collection.

Frequency of response: Annual.

Respondents: States and alternative fuel provider firms.

Estimated number of respondents: 1,000.

Total annual burden hours: 12,000 hours.

Summary/description of need: On May 19, 1999, DOE published an interim final rule to implement provisions of the Energy Conservation Reauthorization Act of 1998 that permit State and alternative fuel provider fleets to meet statutory alternative fueled vehicle acquisition requirements through use of biodiesel fuel use credits (64 FR 27169). DOE received public comments from 10 persons in response to the interim final rule, which invited public comment on this proposed collection, and has replied to these comments in its submission to OMB. To obtain documentation of use of such credits to meet the acquisition requirements, DOE plans to revise the annual reporting form for the program, DOE/OTT/101, Annual Alternative Fueled Vehicle Acquisition Report for State Government and Alternative Fuel Provider Fleets. Fleets claiming biodiesel fuel use credits must, for the model year in which the biodiesel fuel is purchased, report the quantity of biodiesel purchased for use in vehicles weighing more than 8,500 lbs. gross vehicle weight rating.

Issued in Washington, DC, on October 19, 1999.

Dan W. Reicher,

Assistant Secretary, Energy Efficiency and Renewable Energy.
