

with Section 15B(b)(2)(C) ⁶ of the Act. Section 15B(b)(2)(C) of the Act requires, among other things, that the rules of the Board be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and, in general, to protect investors and the public interest. Specifically, the Commission believes that the proposed rule change will prevent fraudulent and manipulative acts and practices and promote just and equitable principles of trade by enabling the NASD to better coordinate periodic examination schedules.

The rule change will extend the maximum period between compliance examinations to three years. For example, if a dealer is examined in January, the two calendar year clock would not start running for the next compliance examination under Rule G-16 until the following January. While this could lengthen the time between compliance examinations, the Commission believes that enhancing the NASD's ability to coordinate examinations should reduce unnecessary regulatory duplication and regulatory burdens for dealers as well as permit the NASD to better allocate its examination resources. The Commission believes that the proposed rule change will ease the burdens for both the examiners and the dealers. By permitted more flexibility in arranging examination schedules, the change to Rule G-16 should result in scheduling examinations based on efficiency and methodology rather than the calendar.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) ⁷ of the Act, that the proposed rule change (SR-MSRB-99-7) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority. ⁸

Margaret H. McFarland,

Deputy Secretary.
