

workers at the Canton and Wooster plants.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with specialty steel and tapered roller bearings and components, contributed importantly to the declines in sales or production and to the total or partial separation of workers of The Timkin Company, Canton, Ohio and Wooster, Ohio. In accordance with the provisions of the Act, I make the following certification:

All workers of The Timkin Company, Canton, Ohio and Wooster, Ohio, engaged in employment related to the production of specialty steel or tapered roller bearings and components, who became totally or partially separated from employment on or after March 2, 1998 through two years from the date of the issuance of this determination, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 13th day of October 1999.
