Abstract: The Survey of Terms of Bank Lending provides unique information concerning the price and certain nonprice terms of loans made to businesses and farmers by commercial banks. The reports are completed for the first full business week of the mid-month of each quarter (February, May, August, and November). The FR 2028A and B collect detailed data on individual loans made during the survey week. The FR 2028S collects the prime interest rate for each day of the survey. From these sample STBL data, estimates of the terms of business and farm loans extended during the reporting week at all insured U.S. commercial banks are constructed. The estimates for business loans are published in the quarterly E.2 release, "Survey of Terms of Bank Lending," while estimates for farm loans are published in the quarterly E.15 release, "Agricultural Finance Databook."

Board of Governors of the Federal Reserve System, October 22, 1999.

Associate Secretary of the Board.
