Description of the need for information and proposed use: The Department is conducting, under

contract to ICF, Consulting, a 1-year study to evaluate the Housing Opportunities for Persons With AIDS (HOPWA) program. The purpose of the study is to examine the effectiveness of the HOPWA program in assisting persons living with HIV/AIDS and their families. Additionally, the study will describe the types of local programs funded and the characteristics of the clients served in more detail than is available through the program's Annual Progress Report. The intent is to understand how well States and localities have used HOPWA resources to further the statutory purpose of the program of devising long-term comprehensive strategies for meeting the housing needs of persons with AIDS. To that end, this study will examine the extent to which HOPWA grantees have used and developed local or State planning and implementation mechanisms.

Agency Form Numbers, if Applicable: None.

Members of the affected public: Government officials in 97 formula grant jurisdictions, 1,200 organizations serving as HOPWA project sponsors, and a sample of 25 to 50 individual clients receiving support through the HOPWA program.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The researchers will administer a one-time, mail survey to 97 formula grantees and 1,200 project sponsors. The completion of the mail surveys is expected to take 30 minutes for a total burden hour estimate of 650 hours. Additionally, the researchers will administer a telephone survey to 25 to 50 program clients. The completion of the client survey is expected to last 15 minutes for a total burden hour estimate of 6.5 to 12.5 hours. Total burden hour estimate for all three surveys is 656.5 to 662.5 hours.
