Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance

Officer at (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

1. Proposed Project

Methodological Study of the Youth Risk Behavior Survey (YRBS)—New—The National Center for Chronic Disease and Health Promotion, Division of Adolescent and School Health. The purpose of this study (1) the test-retest reliability of the questions contained on the YRBS questionnaire and (2) the validity of selected YRBS items. The YRBS is a biennial survey administered to students attending public and private schools in grades 9-12 nationwide. The questionnaire measures priority health risk behaviors related to the major preventable causes of mortality, morbidity, and social problems among both youth and adults in the U.S. OMB

clearance to conduct the national YRBS will expire in January, 2000 (OMB No. 0920-0258, expiration 1/00). Data on the health risk of adolescents is the focus of at least 26 national health objectives in Healthy People 2000: Midcourse Review and 1995 Revisions. The YRBS is providing end-of-decade data to help measure these objectives as well as baseline data to measure many new national health objectives for 2010. A study of the test-retest reliability of the original YRBS questionnaire was conducted several years ago. In 1997-1998 an extensive review of the YRBS was undertaken and then a modified YRBS questionnaire was fielded nationally in 1999. This psychometric study will provide data on the test-retest reliability of the new modified questionnaire and provide data on the validity of selected questions (such as self-reported height and weight). The results will be used to improve the widely-used YRBS questionnaire. The total annual burden hours are 7,882.

Respondents	Number of respondents	Number of responses/re-spondent	Avg. burden per response (in hrs.)
Students—time 1 survey	5,280	1	0.75
Students—height and weight measurement	5,280	1	0.05
Students—time 2 survey	4,800	1	0.75
School administrators	116	1	0.50

Medicare Program; Open Town Hall Meeting To Discuss Transplant Center Criteria

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of meeting.

SUMMARY: This notice announces a meeting to convene all parties interested in providing input to our Medicare coverage policy pertaining to criteria for approving organ transplant facilities. This meeting represents one aspect of the evolving process for making the coverage reviews more open and responsive to the public.

DATES: The meeting is scheduled for Wednesday, December 1, 1999 from 8:30 a.m. until 5 p.m., eastern standard time.

ADDRESSES: The meeting will be held in the Health Care Financing Administration Main Auditorium, 7500 Security Boulevard, Baltimore, Maryland 21244.

FOR FURTHER INFORMATION CONTACT: Jacqueline Sheridan, (410) 786-4635.

SUPPLEMENTARY INFORMATION:

Background

Medicare currently covers heart, liver, and lung transplants only in facilities that meet the following specified criteria, which are similar for the three organ types: Patient selection criteria, patient management protocols, commitment of resources and planning, facility resources, experience and survival, agreement to maintain data, agreement with organ procurement organizations, and laboratory services. (We published three notices in the **Federal Register** related to our criteria for Medicare coverage of heart, liver, and lung transplants, respectively, as follows: April 6, 1987 (52 FR 10935); April 12, 1991 (56 FR 15006); and February 2, 1995 (60 FR 6537).) These criteria have been in place for many years and need to be reevaluated because of advancements in the area of organ transplants.

The purpose of the Town Hall meeting is to convene dialogue on criteria for Medicare coverage of facilities to perform organ transplants, including the possibility of additional rulemaking. Discussion of other controversial transplant-related issues, such as organ allocation policies, organ donation policies, or standards for organ procurement organizations, will not be permitted at this meeting due to time constraints. We anticipate attendance by national professional medical organizations; staff of hospitals that currently perform transplants; experts in technology assessment, health policy, and clinical research; other Federal agencies; managed care organizations; transplant recipients and their families; and other members of the public with an interest in transplants.

The format for the meeting will be four subject-related panel presentations followed by an opportunity for comments from the audience. The panel topics will include (1) aspects of center performance that should be considered in determining coverage; (2) methodology for outcome measures; (3) data; and (4) target thresholds. It is our intent for invited panelists to stimulate further discussion based on the presentations. This discussion will be free-flowing and will not result in consensus statements or a set of advisory recommendations.

The meeting is open to the public, but attendance is limited to space available. We encourage individuals to register early to secure availability and allow time for receipt of background materials. Individuals must register in advance as described below.
