

Needs and Uses: Section 76.924 of the Commission's rules specifies cost accounting and cost allocation requirements for regulated cable operators. Section 76.924 was established as part of the cable rate regulation requirements set forth in the Cable Television Consumer Protection and Competition Act of 1992 ("1992 Cable Act"). This collection accounts for the burden imposed on cable operators to rearrange their accounting records to be in compliance with the requirements set forth in Section 76.924. At this time, that burden should be considered a one-time only recordkeeping requirement for new cable operators. The original requirements set forth in Section 76.924 became effective July 21, 1993. Existing operators are therefore assumed to have already rearranged their accounting records and are in compliance with this recordkeeping requirement. Information derived from accounting records that are arranged in compliance with Section 76.924 is used by the cable operators themselves when completing rate filings and by local franchising authorities when reviewing rate filings.
