IV. Eligibility

1. *Applicants.* In accordance with the Pollution Prevention Act of 1990, eligible applicants for purposes of funding under this grant program include the 50 States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, any territory or possession of the United States, any agency or instrumentality of a State including State universities and all federally recognized Indian tribes. For convenience, the term "State" in this notice refers to all eligible applicants. Local governments, private universities, private non-profit entities, private businesses, and individuals are not eligible. State applicants are encouraged to establish partnerships with other business and environmental assistance providers in order to more seamlessly deliver pollution prevention technical assistance. In many cases partnerships can make the most efficient use of Federal/State government funding.

2. *Availability of FY 2000 funds.* With this publication, EPA is expecting the availability of \$1 million in cooperative agreement funds for FY 2000. These awards will be made through a competitive process for amounts not to exceed \$150,000.00 per year. Proposals may include up to 2 years in their schedule and budget.

3. *Matching requirements.* Under the Pollution Prevention Act of 1990, the Federal Government will provide up to half of the total allowable costs of the project, and the State will provide the remainder. For example, a project costing \$200,000 could be funded by a grant for up to \$100,000 from the Federal government. The State is responsible for providing the remainder. State contributions may include cash, in-kind goods and services and third party contributions.

4. *Catalogue of Federal Domestic Assistance.* The number assigned to this program in the Catalogue of Federal Domestic Assistance is 66.708 (formerly 66.900).

V. Applications

Grant guidance can be obtained by contacting Beth Anderson, Office of Pollution Prevention and Toxics, Mail Code 7409, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460, telephone number: (202) 260-2602, e-mail address: anderson.beth@epa.gov. Access information about this grant program at <http://www.epa.gov/p2>. Federal forms for grant applications can be

downloaded from: <http://www.epa.gov/glnpo/fund/appforms.html>. Note that this Internet site is for the "Great Lakes Funding Program" and not all of these forms or directions apply to this grant program. Federal forms that should be included for this grant program are: Application for Federal assistance OMB form 424; Budget information form 424A; Construction assurances form 424B; Certification regarding debarment, etc form 5700-49; Certification regarding lobbying; and EPA Civil rights form 4700-4. The basic contents of a proposal should include:

(1) A description of the proposed statement of work, including a statement of the problems or issues the proposal addresses.

(2) A description of the tasks that will be carried out, the estimated cost of each task and estimated completion dates.

(3) A description of deliverables that will be produced and estimated completion dates.

(4) A description of the measures or activities that will be reported to reflect the effectiveness of each of the proposed tasks.

(5) A proposed format for biannual reports, including information that will be posted on the web site.

(6) Letters of support from State or local programs which provide technical assistance to small businesses.

VI. Process for Evaluation of Proposals

A national panel, comprised of EPA representatives from both Headquarters and the EPA Regions, will evaluate each proposal. Acceptable proposals, meeting the eligibility requirements in Unit IV of this notice, will be reviewed according to the following criteria:

(1) Relevance and justification for the proposed pollution prevention area of expertise.

(2) Adequacy of activities that address participation in a voluntary network of grantees, measures of customer satisfaction, and reporting pollution prevention information services.

(3) Feasibility of the activities being proposed, taking into account the commitments from other States or programs that will be participating in the proposal.

(4) Qualifications and experience of the applicant and the program manager in serving regional pollution prevention information needs and reporting results under previous grants.

(5) Appropriateness of the proposed budget for each task, deliverables and dates of completion for the activities being proposed.

(6) Level of additional support for the applicant from other sources, including State or Federal funds.

Certain New Chemicals; Receipt and Status Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of the Toxic Substances Control Act (TSCA), EPA is required to publish a notice of receipt of a premanufacture notice (PMN) or an application for a test marketing exemption (TME), and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which covers the period from September 27, 1999 to October 8, 1999, consists of the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

FOR FURTHER INFORMATION CONTACT: Christine M. Augustyniak, Associate Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; telephone numbers: (202) 554-1404 and TDD: (202) 554-0551; e-mail address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Does this Action Apply to Me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific

entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the premanufacture notices addressed in the action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the "FOR FURTHER INFORMATION CONTACT" section.

II. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

A. *Electronically.* You may obtain copies of this document and certain other available documents from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations" and then look up the entry for this document under the "Federal Register -- Environmental Documents." You can also go directly to the "Federal Register" listings at <http://www.epa.gov/fedrgstr/>.

B. *In person.* The Agency has established an official record for this action under docket control number OPPTS-51936. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as confidential

business information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the TSCA Nonconfidential Information Center, North East Rm. B-607, Waterside Mall, 401 M St., SW., Washington, DC. The Center is open from noon to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number of the Center is (202) 260-7099.

III. Why is EPA Taking this Action?

Section 5 of TSCA requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a PMN or an application for a TME and to publish periodic status reports on the chemicals under review and the receipt of notices

of commencement to manufacture those chemicals. This status report, which covers the period from September 27, 1999 to October 8, 1999, consists of the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

IV. Receipt and Status Report for PMNs

This status report identifies the PMNs and TMEs, both pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period. If you are interested in information that is not included in the following tables, you may contact EPA as described in Unit II above to access additional non-CBI information that may be available.

In table I, EPA provides the following information (to the extent that such information is not claimed as CBI) on the PMNs received by EPA during this period: the EPA case number assigned to the PMN; the date the PMN was received by EPA; the projected end date for EPA's review of the PMN; the submitting manufacturer; the potential uses identified by the manufacturer in the PMN; and the chemical identity.

2000 Maximum Reimbursement Fee for Amateur Operator Examinations

October 29, 1999.

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This Public Notice announces that, effective January 1, 2000, the maximum allowable reimbursement fee for an amateur operator license examination will be \$6.66. This amount is based on a 2.6% increase in the Department of Labor Consumer Price Index between September, 1998, and September, 1999.

FOR FURTHER INFORMATION CONTACT: Maurice J. DePont, Federal Communications Commission, Washington, DC 20554, (202) 418-0690.

DATES: Effective January 1, 2000.
SUPPLEMENTARY INFORMATION: Effective January 1, 2000, the maximum allowable reimbursement fee for an amateur operator license examination will be \$6.66. This amount is based on a 2.6% increase in the Department of Labor Consumer Price Index between September, 1998, and September, 1999.¹

Volunteer examiners (VEs) and volunteer-examineer coordinators (VECs) may charge examinees for out-of-pocket expenses incurred in preparing, processing, administering, or coordinating examinations for amateur operator licenses. The amount of any

such reimbursement fee from any one examinee for any one examination session, regardless of the number of elements administered, must not exceed the maximum allowable fee. Where the VEs and the VEC both desire reimbursement, they jointly decide upon a fair distribution of the fee.

This announcement is made pursuant to § 97.527 of the Commission's Rules, 47 CFR 97.527.

Federal Communications Commission.
