Federalism

Executive Order 13132, "Federalism," emphasizes consultation between Federal agencies and the States and establishes specific review procedures the Federal government must follow as it carries out policies which affect State or local governments. This Executive Order does not take effect until November 2, 1999, but will be in effect when OSHA renders its decision on final approval of the Nevada state plan. OSHA has included in the Background section of today's request for public comments a detailed explanation of the relationship between Federal OSHA and the State plan States under the Occupational Safety and Health Act. Although it appears that the specific consultation procedures provided in section 6 of Ex.Ord. 13132 are not mandatory for final approval decisions under the OSH Act, which neither impose a burden upon the State nor involve preemption of any State law, OSHA has nonetheless consulted extensively with Nevada throughout the period of 18(e) evaluation. OSHA has reviewed the Nevada final approval decision proposed today, and believes it is consistent with the principles and criteria set forth in the Executive Order.

Regulatory Flexibility Act

OSHA certifies pursuant to the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) that this determination will not have a significant economic impact on a substantial number of small entities. Final approval would not place small employers in Nevada under any new or different requirements, nor would any additional burden be placed upon the State government beyond the responsibilities already assumed as part of the approved plan.

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; Control of Emissions From Hospital/Medical/Infectious Waste Incinerators (HMIWIs); State of Nebraska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the state of Nebraska's section 111(d) plan for controlling emissions from existing HMIWIs. The plan was submitted to fulfill the requirements of sections 111 and 129 of the Clean Air Act. The state plan establishes emission limits and controls for sources constructed on or before June 20, 1996.

In the final rules section of the **Federal Register**, EPA is approving the state's submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this rule, no further activity is contemplated, and the direct final rule will become effective. If EPA receives relevant adverse comments, the direct final rule will be withdrawn, and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments must be received in writing by December 16, 1999.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551-7603.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

Approval and Promulgation of State Plans For Designated Facilities and Pollutants: Vermont; Negative Declaration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve the Sections 111(d)/129 negative declaration submitted by the Vermont Agency of Natural Resources (ANR) on April 16, 1999. This negative declaration adequately certifies that there are no hospital/medical/infectious waste incinerators (HMIWIs) located within the boundaries of the state of Vermont.

Under Section 111(d) of the Clean Air Act, EPA published regulations at 40 CFR Part 60, Subpart B which require states to submit control plans to control emissions of designated pollutants from designated facilities. In the event that a state does not have a particular designated facility located within its boundaries, EPA requires that a negative declaration be submitted in lieu of a control plan.

The Vermont ANR submitted the negative declaration to satisfy the requirements of 40 CFR Part 60, Subpart B. In the Final Rules Section of this **Federal Register**, EPA is approving the Vermont negative declaration as a direct final rule without a prior proposal. EPA is doing this because the Agency views this action as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA does not receive any significant, material, and adverse comments to this action, then the approval will become final without further proceedings. If EPA receives adverse comments, the direct final rule will be withdrawn and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not begin a second comment period.

DATES: EPA must receive comments in writing by December 16, 1999.

ADDRESSES: You should address your written comments to: Mr. Brian Hennessey, Acting Chief, Air Permits Unit, Office of Ecosystem Protection, U.S. EPA, One Congress Street, Suite 1100 (CAP), Boston, Massachusetts 02114-2023.

Copies of documents relating to this proposed rule are available for public inspection during normal business hours at the following location. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the day of the visit.

Environmental Protection Agency, Air Permits Unit, Office of Ecosystem Protection, Suite 1100 (CAP), One Congress Street, Boston, Massachusetts 02114-2023.

FOR FURTHER INFORMATION CONTACT: John Courcier, Office of Ecosystem Protection (CAP), EPA-New England, Region 1, Boston, Massachusetts 02203, (617) 918-1659, or by e-mail at courcier.john@epa.gov. While the public may forward questions to EPA via e-mail, it must submit comments on this proposed rule according to the procedures outlined above.

SUPPLEMENTARY INFORMATION: See the information provided in the Direct Final action of the same title which is found in the Rules Section of this **Federal Register**.

Dated: November 1, 1999.

Registration Requirements for Antimicrobial Pesticide Products and Other Pesticide Regulatory Changes; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of comment period.

SUMMARY: EPA is extending the comment period for its antimicrobial procedures proposal in response to requests from commenters. This proposal, among other things, would

establish procedures for the registration of antimicrobial pesticides and performance standards for public health antimicrobial pesticides. It would also make other changes affecting all pesticide products, including interpretation of new provisions relating to nitrogen stabilizers, and updating and reorganization of human hazard labeling requirements.

DATES: Comments, identified by the docket control number OPP-300890, must be received on or before January 18, 2000.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the "SUPPLEMENTARY INFORMATION." To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-300890 in the subject line on the first page of your response.
