

determinations of the State of Florida that adequate and reasonably available pumpout facilities exist around the waters (out to 600 feet from shore) of the Island of Key West. A petition was received from the State of Florida requesting a determination by the Regional Administrator, Environmental Protection Agency, pursuant to section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal of sewage from all vessels are reasonably available for the waters around the City of Key West to qualify as a No Discharge Zone (NDZ). This action is taken under section 312(f)(3) of the Clean Water Act.

This determination was published in the **Federal Register** on August 25, 1999 (64 FR 46390), and comments were received through September 24, 1999. EPA Region 4 received 27 comment letters (19 in favor, 8 opposed) concerning this NDZ designation. Six of the opposition letters state that insufficient pumpout facilities exist. EPA and the State of Florida found the following facilities available for pumping out vessel holding tanks in the City of Key West area. Their address, telephone number, hours of operation and draft are as follows:

A. Galleon Marina; 619 Front Street, Key West, Florida 33040; 305-292-1292; 8 a.m.-6 p.m. 7 days/week; 45' draft.

B. Historic Seaport at Key West Bight; 201 William Street, Key West, Florida 33040; 305-293-8309; 7 a.m.-7 p.m. (summer) 7 a.m.-5 p.m. (winter) 7 days/week; 12' draft.

C. Key West Conch Harbor; 951 Caroline Street, Key West, Florida 33040; 305-294-2933; 6 a.m.-Sunset 7 days/week; 10' draft.

D. Garrison Bight Marina; Garrison Bight Causeway, Key West, Florida 33040; 305-292-8167; 24 hours/day 7 days/week; 7' draft; mobile pumpout barge operated 8 a.m.-5 p.m. Monday through Saturday; 1' draft.

E. Sunset Marina; 5555 College Road, Stock Island, Key West, Florida 33040; 305-296-7101; 7 a.m.-8 p.m. daily; 6.5' draft.

Additional pumpout facilities are being installed at several other marinas within city limits. The facilities at A & B Marina are scheduled for completion by September 1, 1999. The Key West Yacht Club is currently seeking permits for a pumpout facility. The Historic Seaport at Key West Bight has budgeted funds for installation of dockside pumpouts for charterboats within the next fiscal year. Therefore EPA Region

4 continues to concur with the State of Florida that adequate and reasonably available pump out facilities exist for NDZ designation. Other points in opposition included the efficiency of the city sewer system, the effectiveness of Type I and Type II MSDs, and the relative contribution of MSD effluent to the overall ecosystem. The effluent discharge from Type I and Type II MSDs contain elevated levels of nutrients and a variety of disinfectants which can degrade water quality and adversely impact the coral reef ecosystem. The City of Key West is currently in the process of upgrading its sewage treatment facility to advanced wastewater treatment (AWT) and deep well injection. This will result in the removal of all nutrients and other pollutants from surface waters.

John H. Hankinson, Jr.,

Regional Administrator, Region 4.

collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before January 18, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commissions, Room 1 A-804, 445 Twelfth Street, SW, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0546.

Title: Definition of markets for purposes of the Cable Television Mandatory Broadcast Signal Carriage Rules, section 76.59.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 150.

Estimated Time Per Response: 4-40 hours.

Frequency of Response: On occasion filing requirement.

Total Annual Burden: 1,680 hours.

Total Annual Costs: \$721,500.

Needs and Uses: On May 26, 1999, the Commission released an Order on Reconsideration and Second Report and Order in the Matter of Definition of Markets for Purposes of the Cable Television Mandatory Broadcast Signal Carriage Rules. Among other things, this rulemaking established final rules for procedures for refining the market modification process by adopting a standardized evidence approach to the market modification process. The Commission sets forth specific information submission requirements for the market modification process, as detailed in amended Section 76.59.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.
