

Engineers, San Francisco District, 333 Market Street, 7th Floor, Planning Branch, San Francisco, CA 94105-2197.

SUPPLEMENTARY INFORMATION:

1. Authority

The feasibility study is being conducted under authority of the Flood Control Act of 18 August 1941, which authorized a preliminary examination and survey of the Coyote River (now Coyote Creek) and its tributaries. A reconnaissance study of flood control alternatives along Upper Penitencia Creek was completed in 1995. This study determined there is a Federal interest in a flood control project in the study area. A detailed (feasibility) study has subsequently been initiated with the SCVWD to support further Federal participation in the project.

2. Alternatives

Three basic alternatives, each with three subalternatives, were developed for the reconnaissance study. These alternatives included various combinations of modified floodplains, bypass channels, trapezoidal channels, and floodproofing. The feasibility study will examine a range of alternative methods of flood control.

3. Comments and Scoping Meetings

The Corps of Engineers is requesting public input during the EIS/R preparation for this project. All interested Federal, State, and local agencies, Indian tribes, private organizations, and individuals are invited to participate in the environmental scoping process established by Federal regulations. A scoping meeting will be held on December 1, 1999, from 7:00 PM to 9:00 PM, at the Education Center Lounge, East Side Union High School, 830 N. Capitol Ave., San Jose, California 95133. The purpose of the meeting is to determine the environmental issues of concern to the public that should be addressed by the EIS/R. A public comment period for the proposal will open on November 19, 1999, and will close on December 20, 1999. The public will have an additional opportunity to comment on proposed alternatives after the EIS/R is released to the public at a later date. This EIS scoping meeting will also serve as a scoping meeting for the purposes of CEQA.

4. Issues to be Considered

The EIS/R will examine environmental issues of public concern arising from the scoping process, and project impacts already known to the Corps. These impacts will include, but are not limited to: wildlife, fisheries,

threatened and endangered species, vegetation, water quality, recreation and park development, aesthetics, transportation, cultural resources, public safety, and noise. The EIS/R will disclose the project's compliance with all applicable statutes, rules, and regulations. Included will be coordination with the U.S. Fish and Wildlife Service (FWS) under the Fish and Wildlife Coordination Act, coordination with the FWS and the National Marine Fisheries Service under the Endangered Species Act, and coordination with the State of California under the Federal Clean Water Act and Clean Air Act.
