SUPPLEMENTARY INFORMATION: The OCC is proposing to extend OMB approval of the following information collection:

Title: Recordkeeping Requirements for Securities Transactions—12 CFR 12.

OMB Number: 1557-0142.

Form Number: None.

Abstract: This submission covers an existing regulation and involves no change to the regulation or to the information collections embodied in the regulation. The OCC requests only that OMB renew its approval of the information collections in the current regulation.

The information collection is required to ensure national bank compliance with securities laws and to improve the protection afforded persons who purchase and sell securities through banks. The transaction confirmation information provides customers with a record regarding the transaction and provides banks and the OCC with records to ensure bank compliance with banking and securities law and regulations. The OCC uses the required information in its examinations to, among other things, evaluate the bank's compliance with the antifraud provisions of the Federal securities laws.

The requirements in 12 CFR part 12 are located as follows:

Recordkeeping requirements: 12 CFR 12.3(a).

Notification of transaction to customer: 12 CFR 12.4.

Notification by agreement: 12 CFR 12.5(a), (b), (c), and (e).

Securities trading policies: 12 CFR 12.7(a).

Report by bank officers and employees: 12 CFR 12.7(a) and (b).

Waiver request: 12 CFR 12.8.

Type of Review: Extension, without change, of a currently approved collection.

Affected Public: Businesses or other for-profit.

Number of Respondents: 745.

Total Annual Responses: 745.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 3,913.

Comments

Your comment will become a matter of public record. You are invited to comment on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;

(b) Whether the OCC's burden estimate is accurate;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) Whether the OCC's estimates of the capital or startup costs and costs of operation, maintenance, and purchase of services to provide information are accurate.

BILLING CODE 4810-33-P

UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION

Notice of Availability of the Record of Decision on the Diamond Fork System, Central Utah Project

AGENCY: The Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission).

ACTION: Notice of availability of the Record of Decision (ROD)

SUMMARY: On November 19, 1999, Don A. Christiansen, Chairman of the Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission) signed the Record of Decision (ROD) which documents the selection of the Proposed Action as presented in the 1999 Final Supplement to the 1984 Diamond Fork Power System Final Environmental Statement (1999 FS-FEIS; FEIS 99-25) filed with the U.S. Environmental Protection Agency on July 1, 1999. The Mitigation Commission, Central Utah Water Conservancy District and the Department of the Interior served as joint lead agencies in the preparation of the 1999 FS-FEIS. The Proposed Action and a No Action alternative are described and evaluated in the FS-FEIS

upon which the ROD is based.

Implementation of the Proposed Action responds to the Mitigation Commission's and the Department of the Interior's need to mitigate for impacts of the Bonneville Unit of the Central Utah Project and other federal reclamation projects. The Proposed Action also responds to the need to transport, on average, 147,600 acre-feet of water annually from the Colorado River drainage to the Utah Lake drainage including 86,100 acre-feet of CUP water to facilitate exchanges of water from Utah Lake to Jordanelle Reservoir for municipal and industrial supplies. Under the Proposed Action, the water will be conveyed through the Diamond Fork System and Strawberry Tunnel (an existing feature). The Assistant Secretary for Water and Science, Department of the Interior, has issued a separate ROD for the Diamond Fork System. The Assistant Secretary's separate decision is necessitated by the responsibility and authority of the Department of the Interior for other aspects of the project beyond the scope of the Mitigation Commission to mitigate for reclamation projects.

The Proposed Action will accomplish these measures by construction and operation of a series of pipelines, tunnels, and other facilities which will convey the transmountain diversions of the Central Utah Project (CUP) and Strawberry Valley Project (SVP). These facilities will remove environmentally damaging high flows from natural stream courses that have been released since the early part of the 20th century. Additionally, minimum instream flows will be provided. Removal of high flows and provision of minimum flows will allow for the restoration of a more natural ecosystem, improvement of fish and wildlife habitats and populations, and increases in recreational uses.
