

Most customer satisfaction surveys will be recurring so that VHA can create ongoing measures of performance and to determine how well the agency meets customer service standards. Each collection of information will consist of the minimum amount of information necessary to determine customer needs and to evaluate VHA's performance. VHA expects a total annual burden of approximately 45,384 hours in 2000, 2001, and 2002.

The areas of concern to VHA and its customers may change over time, and it is important to have the ability to evaluate customer concerns quickly. OMB will be requested to grant generic clearance approval for a 3-year period to conduct customer satisfaction surveys and focus groups. Participation in the surveys will be voluntary and the generic clearance will not be used to collect information required to obtain or maintain eligibility for a VA program or benefit. In order to maximize the voluntary response rates, the information collection will be designed to make participation convenient, simple, and free of unnecessary barriers. Baseline data obtained through these information collections will be used to improve customer service standards. VHA will consult with OMB regarding each specific information collection during this approval period.
