BILLING CODE 3410-11-M

DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2000 Annual Demographic Survey—Supplement to the Current Population Survey.

Form Number(s): CPS-580, -580(SP), -676, -676(SP).

Agency Approval Number: 0607-0354.

Type of Request: Revision of a currently approved collection.

Burden: 20,833 hours.

Number of Respondents: 50,000.

Avg. Hours Per Response: 25 minutes.

Needs and Uses: The Census Bureau conducts the Annual Demographic Survey (ADS) every year in March in conjunction with the Current Population Survey (CPS). The Census Bureau, the Bureau of Labor Statistics, and the Department of Health and

Human Services sponsor this supplement. In the ADS, we collect information on work experience, personal income and noncash benefits, household noncash benefits, health insurance coverage, participation in welfare reform benefits, race, and migration.

The work experience items in the ADS provide a unique measure of the dynamic nature of the labor force as viewed over a one-year period. These items produce statistics that show movements in and out of the labor force by measuring the number of periods of unemployment experienced by persons, the number of different employers worked for during the year, the principal reasons for unemployment, and part-/full-time attachment to the labor force. The income data from the ADS are used by social planners, economists, Government officials, and market researchers to gauge the economic well-being of the Nation as a whole, and selected population groups of interest. Government planners and researchers use these data to monitor and evaluate the effectiveness of various assistance programs. Market researchers use these data to identify and isolate potential customers. Social planners use these data to forecast economic conditions and to identify special groups that seem to be especially sensitive to economic fluctuations. Economists use March data to determine the effects of various economic forces, such as inflation, recession, recovery, etc., and their differential effects on various population groups. Researchers evaluate March income data not only to determine poverty levels, but also to determine whether Government programs are reaching eligible households.

The March 2000 ADS contains, for the most part, the same items from last year. We have made improvements to the welfare reform questions based on cognitive testing.

Affected Public: Individuals or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, Section 182 and Title 29 USC, Sections 1-9.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5027, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at LEngelme@doc.gov).

Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: December 3, 1999.

Linda Engelmeier,

Departmental Forms Clearance Officer, Office of the Chief Information Officer.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The Census Bureau conducts the SIPP which is a household-based survey designed as a continuous series of national panels. New panels are introduced every few years with each panel usually having durations of 3 to 4 years. Respondents are interviewed once every four months in monthly rotations. Approximately 11,500 households are in the 2000 panel.

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single,
