

and a final rule identifying the provisions of Part 132 that shall apply for discharges within the State.

EPA reviewed the submittal from Illinois for consistency with the Guidance in accordance with 40 CFR 131 and 132.5. EPA determined that certain parts of Illinois' submittal are inconsistent with the requirements of the CWA or 40 CFR part 132 and will be subject to EPA disapproval if not corrected. On November 12, 1999, in a letter from EPA Region 5 to the Illinois Environmental Protection Agency, EPA described in detail those provisions determined to be inconsistent with the Guidance and subject to disapproval if not remedied by the State. The inconsistencies relate to the following components of the State's submittals in conformance with section 118(c) of the CWA and 40 CFR part 132: the equation for calculation of wildlife criteria, the procedures for implementing antidegradation, site-specific modifications to protect threatened and endangered species, variances, total maximum daily loads, chemical specific and whole-effluent toxicity reasonable potential, mixing zone demonstrations, intake pollutants, determination of reasonable potential using fish tissue data, water quality based limitations below quantification levels, and compliance schedules. Based on our review to date, EPA believes that with the above exceptions, the submission by the State of Illinois is consistent with the Guidance. Today, EPA is soliciting public comment regarding all aspects of this letter. In particular, EPA solicits comments on the provisions identified in the November 12, 1999 letter as being inconsistent with the CWA and the Guidance, on EPA's proposed course of action if a State fails to remedy those inconsistencies, and on EPA's belief that the remainder of the State's submissions are consistent with the Guidance.

During the next 90 days, EPA intends to continue working with Illinois to address the inconsistencies identified in the November 12, 1999 letter. If Illinois fails to remedy any of the inconsistencies identified in the letter, EPA will publish a notice in the **Federal Register** identifying the disapproved elements and the corresponding portions of Part 132 that will apply to waters within the Great Lakes Basin in Illinois.

Dated: November 24, 1999.

Francis X. Lyons,

Regional Administrator, Region 5.
