NUCLEAR REGULATORY COMMISSION

[Docket No. 50-255]

Consumers Regulatory Co. Palisades Plant; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 189 to Facility Operating License No. DPR-20, issued to the Consumers Energy Company (the licensee), for operation of the Palisades Plant, located in Van Buren County, Michigan.

The amendment is effective as of the date of issuance and shall be implemented on or before October 21, 2000. The implementation of the amendment includes one license condition that is being added to Section 2.C of the operating license as part of the amendment.

The amendment replaces, in its entirety, the current Technical

Specifications (TSs) with a set of improved TSs based on (1) NUREG-1432, "Standard Technical Specifications, Combustion Engineering Plants," Revision 1, dated April 1995, including subsequent approved changes to the standard TSs, (2) guidance provided in the Commission's "Final Policy Statement on Technical Specifications Improvements for Nuclear Power Reactors," published on July 22, 1993 (58 FR 39132), and (3) 10 CFR 50.36, "Technical Specifications," as amended July 19, 1995 (60 FR 36953). In addition, the amendment added one license condition to Section 2.C of the operating license that provides the schedule for the first performance of surveillance requirements that are new or revised in the amendment.

The application for the amendment, as supplemented, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1.

Notice of Consideration of Issuance of Amendment and Opportunity for Hearing in connection with this action was published in the **Federal Register** on September 21, 1999 (64 FR 51147). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of the amendment will not have a significant effect on the quality of the human environment beyond that described in the Final Environmental Statement related to the operation of the Palisades Nuclear Generating Plant dated June 1972, and in the addendum to the Final Environmental Statement dated February 1978. The Environmental Assessment as published in the **Federal Register** on October 22, 1999 (64 FR 57156).

For further details with respect to the action, see (1) the application for amendment dated January 26, 1998, as supplemented by letters dated April 30, September 14, October 12, and November 9, 1998, and March 1, March 22, March 30, April 7, May 3, June 4, June 11, June 17, July 19, July 30, September 17, September 30, October 22, and November 5, 1999, (2) Amendment No. 189 to License No. DPR-20, (3) the Commission's related Safety Evaluation, and (4) the
