SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those state project managers that are currently overseeing facilities that are on the Corrective Action GPR Baseline.

Title: RCRA Corrective Action Information Request (EPA ICR No. 1939.01)

Abstract: This information collection is in response to an April 15, 1999 request from Congress concerning the RCRA Corrective Action program. Included in this inquiry were certain questions which only the state offices have the information to answer. EPA intends to obtain this information from the states by means of a questionnaire. The questionnaire includes facility specific questions on all RCRA Cleanup Baseline facilities, enforcement orders, state authority, and federal funding. Responses to this request will be mandatory and all information will be used to respond to Congress and to provide an accurate picture of the current state of the program.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. Nine state employees were asked to complete the questionnaire for the purpose of determining the burden involved. The results are as follows: (a) The projected cost and hour burden associated with completing the entire questionnaire averaged 16.5 hours and \$450 (this time and cost burden takes into account all activities associated with completing the questionnaire), (b) the estimated number of likely respondents needed to complete the questionnaire is 4.

Investigator-Initiated Grants: Request for Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of request for applications.

SUMMARY: This document provides information on the availability of fiscal year 2000 investigator-initiated grants program announcements, in which the areas of research interest, eligibility and submission requirements, evaluation criteria, and implementation schedules are set forth. Grants will be competitively awarded following peer review.

DATES: Receipt dates vary depending on the specific research area within the solicitation and are listed below.

FOR FURTHER INFORMATION CONTACT: U.S. Environmental Protection Agency, National Center for Environmental Research and Quality Assurance (8703R), 401 M Street SW, Washington DC 20460, telephone (800) 490-9194. The complete announcement can be accessed on the Internet from the EPA home page: <http://www.epa.gov/ncerqa> under "announcements."

SUPPLEMENTARY INFORMATION: In its Requests for Applications (RFA) the U.S. Environmental Protection Agency (EPA) invites research grant applications in the following areas of special interest to its mission: (1) Environmental Indicators in the Estuarine Environment Research Program (joint with the National Aeronautics and Space Administration); (2) Market Mechanisms and Incentives for Environmental Management; and (3) Biomarkers for the Assessment of Exposure and Toxicity in Children. Applications must be received as follows: March 7, 2000, for topic (1); February 2, 2000, for topic (2); and February 9, 2000, for topic (3).

The RFAs provide relevant background information, summarize EPA's interest in the topic areas, and describe the application and review process.

Contact persons for the Environmental Indicators in the Estuarine Environment Research Program RFA are Barbara Levinson (levinson.barbara@epa.gov), telephone 202-564-6911, and Eric Lindstrom (elindstr@hq.nasa.gov), telephone 202-358-4540. Contact person for the Market Mechanisms and Incentives RFA is Matthew Clark

(clark.matthew@epa.gov), telephone 202-565-2447. Contact person for the Biomarkers for the Assessment of Exposure and Toxicity in Children RFA is Chris Saint (saint.chris@epa.gov), telephone 202-564-6909.

Dated: November 15, 1999.
