Neomycin Sulfate Combination Indications for Use Limitations Sponsor

(2) 400 to 2,000 g/t of type C milk replacer.

Do. To provide 10 mg of neomycin sulfate per pound of body weight per day for a maximum of 14 days. Amount consumed will vary depending on animal’s consumption and weight. If symptoms persist after using for 2 or 3 days, consult a veterinarian. Treatment should continue 24 to 48 hours beyond remission of disease symptoms. Discontinue treatment prior to slaughter as follows: Cattle 1 day, swine 3 days, sheep 2 days, and goats 3 days. A withdrawal period has not been established for use in preruminating calves. Do not use in calves to be processed for veal. A milk discard time has not been established for use in lactating dairy cattle or lactating dairy goats. Do not use in female dairy cattle 20 months of age or older or female dairy goats 12 months of age or older. For use in milk replacers only.

Dated: December 1, 1999.
Andrew J. Beaulieu,
Deputy Director, Center for Veterinary Medicine.

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement
30 CFR Part 914
[SPATS No. IN–142–FOR]
Surface Coal Mining and Reclamation Operations On Federal Lands; State–Federal Cooperative Agreements; Indiana

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: The Governor of the State of Indiana and the Secretary of the Interior are entering into a cooperative agreement between the Department of the Interior and the State of Indiana. This agreement will allow Indiana, under the permanent regulatory program, to regulate surface coal mining and reclamation operations on Federal lands in Indiana. Section 523(c) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA) authorizes the cooperative agreement.

SUPPLEMENTARY INFORMATION:
I. Background on the Indiana Program
II. Submission of the Cooperative Agreement
III. Director’s Findings
IV. Approval of the Cooperative Agreement
V. Summary and Disposition of Comments
VI. Procedural Determinations

I. Background on the Indiana Program

The Secretary conditionally approved the Indiana program effective on July 29, 1982. On August 19, 1983, the program was fully approved. You can find background information on the Indiana program, including the Secretary’s findings, the disposition of comments, and the conditions of approval in the July 26, 1982, Federal Register (47 FR 32107). You can find later actions on the Indiana program at 30 CFR 914.10, 914.15, and 914.16.

II. Submission of the Cooperative Agreement

By letter dated March 10, 1998 (Administrative Record No. IND–1598), Indiana submitted a request for a State–Federal cooperative agreement under 30 CFR 745.11.

We announced receipt of the amendment in the February 8, 1999, Federal Register (64 FR 32107). You can find later actions on the Indiana program at 30 CFR 914.10, 914.15, and 914.16.
Under the Federal regulations at 30 CFR 745.11(f), we must make the following three findings before recommending to the Secretary that the Department of the Interior enter into a cooperative agreement with a State.

1. We find that the State of Indiana has a State program which was conditionally approved and became effective on July 29, 1982, after publication in the Federal Register on July 26, 1982 (47 FR 32107). The program was fully approved on August 19, 1983 (48 FR 37626).

2. We find that the State regulatory authority has sufficient budget, equipment and personnel to enforce fully the State’s statutes and regulations for regulating surface coal mining and reclamation operations on Federal land covered by the cooperative agreement in Indiana. We base this finding upon the written certification by the Budget Analyst for the Division of Reclamation, Indiana Department of Natural Resources.

3. We find that the State of Indiana has the legal authority to administer the cooperative agreement. This finding is based upon the written certification of the Chief Legal Counsel of the Indiana Department of Natural Resources and on the approval of the State’s permanent regulatory program.

We reported our findings to the Secretary in a decision memorandum and recommended approval of the cooperative agreement.

IV. Approval of the Cooperative Agreement

Based upon the approved Indiana State program, the administrative record of this rulemaking, written comments, and our findings and recommendations, the Secretary is entering into a permanent program cooperative agreement with the State of Indiana. We are publishing the signed cooperative agreement as part of this rulemaking and are codifying it at 30 CFR Part 914. By its terms, the cooperative agreement becomes effective on January 18, 2000.

V. Summary and Disposition of Comments

Public Comments

We requested public comments and provided an opportunity for a public hearing on the proposed cooperative agreement. No comments were submitted by members of the public and no one requested a public hearing. Because no one requested an opportunity to speak at a public hearing, we did not hold one.

Federal Agency Comments

Under 30 CFR 745.11(e), we requested comments on the cooperative agreement from various Federal agencies with an actual or potential interest in the Indiana program (Administrative Record No. IND–1629). In a letter dated February 22, 1999, the U.S. Department of the Interior Fish and Wildlife Service (FWS) stated that it has no specific concerns about the program revision as long as it provides for an agency coordination process that is at least as effective as the federal process would be (Administrative Record No. IND–1631). The cooperative agreement under Article VI. Review of Permit Application Package, items B. and C. provides for the Division of Reclamation, Indiana Department of Natural Resources to consult with the Federal land management agency and to obtain comments and determinations of other Federal agencies with jurisdiction or responsibility over Federal lands affected by the operations proposed in coal mining permit application packages. This provision is seen as adequately addressing the concerns raised by the FWS.

The U.S. Department of the Interior’s Bureau of Land Management (Administrative Record No. IND–1632) and the Minerals Management Service (Administrative Record No. IND–1634) responded, in letters dated March 2 and 4, 1999, respectively, that they have no comments.

VI. Procedural Determinations

1. Executive Order 12866—Regulatory Planning and Review

This document is not a significant rule and is not subject to review by the Office of Management and Budget (OMB) under Executive Order 12866.

(a) This rule will not have an effect of $100 million or more on the economy. It will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities.

(b) This rule will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency.

(c) This rule does not alter the budgetary effects or entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients.

(d) This rule does not raise novel legal or policy issues.

2. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This rule will establish a cooperative agreement between the Department of the Interior and the State of Indiana. The cooperative agreement does not impose any new substantive requirements on the coal industry. It merely authorizes the State of Indiana to regulate surface coal mining and reclamation activities on Federal lands in Indiana instead of the Federal government regulating these activities.

3. Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule:

(a) Does not have an annual effect on the economy of $100 million or more. The rule only affects the State of Indiana. The costs of carrying out the functions under the cooperative agreement are offset by grants from the Federal government.

(b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions because the rule does not impose any new requirements on the coal mining industry or consumers. The functions that will be performed by the State under the cooperative agreement are offset by grants from the Federal government.

(c) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of the U.S.-based enterprises to compete with foreign-based enterprises for the reasons stated above.

4. Unfunded Mandates

This rule does not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than $100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. The rule establishes a cooperative agreement at the request of the State of Indiana and will result in the delegation of authority to the State. A statement containing the information required by the Unfunded Mandates Reform Act (1 U.S.C. 1531 et seq.) is not required.

5. Executive Order 12630—Takings

In accordance with Executive Order 12630, the rule does not have significant takings implications. The rule establishes a cooperative agreement at the request of the State of Indiana and will result in the delegation of authority
to the State. A takings implication assessment is not required.

6. Executive Order 12612—Federalism

In accordance with Executive Order 12612, the rule does not have significant Federalism implications to warrant the preparation of a Federalism Assessment. The rule establishes a cooperative agreement at the request of the State of Indiana and will result in the delegation of authority to the State. Therefore, a Federalism assessment is not required.

7. Executive Order 12988—Civil Justice Reform

In accordance with Executive Order 12988, the Office of the Solicitor has determined that this rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

8. Paperwork Reduction Act

This rule does not require information collection from 10 or more parties or a submission under the Paperwork Reduction Act. An OMB form 83-1 is not required.

9. National Environmental Policy Act

This rule does not require an environmental impact statement since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Authors: The principal author of this final rule is Andrew R. Gilmore, Director, Office of Surface Mining, Indianapolis Field Office, Minton-Capehart Federal Building, 575 N. Pennsylvania Street, Indianapolis, Indiana 46204–1521.

List of Subjects in 30 CFR Part 914

Intergovernmental relations, Surface mining, Underground mining.

Dated: July 14, 1999.

Sylvia V. Baca,
Acting Assistant Secretary, Land and Minerals Management.

For the reasons given in the preamble, 30 CFR part 914 is amended as set forth below:

PART 914—INDIANA

§914.30 State-Federal Cooperative Agreement.

State-Federal Cooperative Agreement

The Governor of the State of Indiana (Governor) and the Secretary of the Department of the Interior (Secretary) enter into a Cooperative Agreement (Agreement) to read as follows:

Article I: Introduction, Purposes and Responsible Agencies

A. Authority

This Agreement is authorized by section 523(c) of the Surface Mining Control and Reclamation Act (SMCRA), 30 U.S.C. 1273(c), which allows a State with a permanent regulatory program approved by the Secretary under section 503 of SMCRA, 30 U.S.C. 1253, to elect to enter into an Agreement for the State regulation of surface coal mining and reclamation operations (including surface operations and surface impacts incidental to underground mining operations) on Federal lands. This Agreement provides for State regulation of surface coal exploration operations not subject to 43 CFR Part 3400 and surface coal mining and reclamation operations in Indiana on Federal lands (30 CFR Chapter VII Subchapter D), consistent with SMCRA and State and Federal laws governing such activities and the Indiana State Program (Program).

B. Purposes

The purposes of this Agreement are to (a) foster Federal-State cooperation in the regulation of surface coal mining and reclamation operations and coal exploration operations not subject to 43 CFR Part 3400; (b) minimize intergovernmental overlap and duplication; and (c) provide uniform and effective application of the Program on all lands in Indiana in accordance with SMCRA, the Program, and this Agreement.

C. Responsible Administrative Agencies

The Natural Resource Commission (NRC) and the Division of Reclamation (DOR) of the Indiana Department of Natural Resources will be responsible for administering this Agreement on behalf of the Governor under the approved Indiana Regulatory Program. The Office of Surface and Mining Reclamation and Enforcement (OSM) will administer this Agreement on behalf of the Secretary.

Article II: Effective Date

After being signed by the Secretary and the Governor, this Agreement will take effect 30 days after publication in the Federal Register as a final rule. This Agreement will remain in effect until terminated as provided in Article XI.

Article III: Definitions

The terms and phrases used in this Agreement which are defined in SMCRA, 30 CFR Parts 700, 701 and 740, the Program, including the OSM approved State Act (I.C. 14–34), and the rules and regulations promulgated pursuant to those Acts, will be given the meanings set forth in said definitions. Where there is a conflict between the above referenced State and Federal definitions, the definitions used in the Program will apply.

Article IV: Applicability

In accordance with the Federal lands program, the laws, regulations, terms and conditions of the Program are applicable to Federal lands in Indiana except as otherwise stated in this Agreement, SMCRA, 30 CFR 740.4, 740.11(a) and 745.13, and other applicable laws, Executive Orders, or regulations.

Article V: General Requirements

The Governor and the Secretary affirm that they will comply with all the provisions of this Agreement.

A. Authority of State Agency: DOR and NRC have and will continue to have the authority under State law to carry out this Agreement.

B. Funds: 1. Upon application by DOR and subject to appropriations, OSM will provide the State with the funds to defray the costs associated with carrying out its responsibilities under this Agreement as provided in section 705(c) of SMCRA, the grant agreement, and 30 CFR 735.16. Such funds will cover the full cost incurred by DOR and NRC in carrying out these responsibilities, provided that such cost does not exceed the estimated cost the Federal government would have expended on such responsibilities in the absence of this Agreement.

2. OSM’s Indianapolis Field Office and OSM’s Mid-Continent Region Coordinating Center office will work with DOR to estimate the amount the Federal government would have expended for regulation of Federal lands in Indiana in the absence of this Agreement.

3. OSM and the State will discuss the OSM Federal lands cost estimate. After resolution of any issues, DOR will include the Federal lands cost estimate in the State’s annual regulatory grant application submitted to OSM’s Indianapolis Field Office.

The State may use the existing year’s budget totals, adjusted for inflation and workload considerations in estimated regulatory costs for the following grant year. OSM will notify DOR as soon as possible if such projections are not acceptable.

4. If DOR applies for a grant but sufficient funds have not been appropriated to OSM, OSM and DOR will promptly meet to decide on appropriate measures that will ensure that surface coal mining and reclamation operations on Federal lands in Indiana are regulated in accordance with the Program. If agreement cannot be reached, either party may terminate the Agreement in accordance with Article XI of this Agreement.

5. Funds provided to the DOR under this Agreement will be adjusted in accordance with Office of Management and Budget Common Rule for Uniform Administration Requirements for Grants and Cooperative Agreements to State and Local Governments.

C. Reports and Records: DOR will make annual reports to OSM containing information with respect to compliance with the terms of this Agreement pursuant to 30 CFR 745.12(d). Upon request, DOR and OSM will exchange information developed under
this Agreement, except where prohibited by Federal or State law.

OSM will provide DOR with a copy of any final evaluation report prepared concerning State administration and enforcement of this Agreement. DOR comments on the report will be appended before transmission to the Congress, unless necessary to respond to a request by a date certain, or to other interested parties.

D. Personnel: Subject to adequate appropriations and grant awards, the DOR will direct personnel to fully implement this Agreement in accordance with the provisions of SMCRA, the Federal lands program, and the Program.

E. Equipment and Laboratories: Subject to adequate appropriations and grant awards, the DOR will assure itself access to equipment, laboratories, and facilities with which all inspections, investigations, studies, tests, and analyses can be performed which are necessary to carry out the requirements of the Agreement.

F. Permit Application Fees and Civil Penalties: The amount of the fee accompanying an application for a permit for surface coal mining and reclamation operations on Federal lands in Indiana will be determined in accordance with the approved Indiana Program. All permit fees, civil penalties and fines collected from operations on Federal lands will be retained by the State and will be deposited within the Natural Resources Reclamation Division Fund. Permit fees will be considered program income. Civil penalties and fines will not be considered program income. The financial status report submitted pursuant to 30 CFR 735.26 will include a report of the amount of fees, penalties, and fines collected on such permits during the State’s prior fiscal year.

Article VI: Review of Permit Application Package

A. Submission of Permit Application Package:

1. DOR and the Secretary require an applicant proposing to conduct surface coal mining and reclamation operations on Federal lands by this Agreement to submit a permit application package (PAP) in an appropriate number of copies to DOR. DOR will furnish OSM and other Federal agencies with an appropriate number of copies of the PAP. The PAP will be in the form required by DOR and will include any supplemental information required by OSM, the Federal land management agency, and other agencies with jurisdiction or responsibility over Federal lands affected by the operations proposed in the PAP. As a minimum, the PAP will satisfy the requirements of 30 CFR 740.13(b) and include the information necessary for DOR to make a determination of compliance with the Program and for OSM and the appropriate Federal agencies to make determinations of compliance with applicable requirements of SMCRA, the Federal lands program, and other Federal laws, Executive Orders, and regulations for which they are responsible.

2. For any outstanding or pending permit applications on Federal lands being processed by OSM prior to the effective date of this Agreement, OSM will maintain sole permit decision responsibility. After the final decision, all additional responsibilities shall pass to DOR pursuant to the terms of this Agreement along with any attendant fees, fines, or civil penalties therefrom.

B. Review Procedures Where There is No Leased Federal Coal Involved:

1. DOR will assume the responsibilities for review of PAPs where there is no leased Federal coal to the extent authorized in 30 CFR 740.4(c)(1) through (7). In addition to consultation with the Federal land management agency pursuant to 30 CFR 740.4(c)(2), DOR will be responsible for obtaining, except for non-significant revisions, the comments and determinations of other Federal agencies with jurisdiction or responsibility over Federal lands affected by the operations proposed in the PAP. DOR will request such Federal agencies to furnish their findings or any requests for additional information to DOR within 45 calendar days of the date of receipt of the PAP. OSM will assist DOR in obtaining this information, upon request. Responsibilities and decisions which can be delegated to DOR under other applicable Federal laws may be specified in working agreements with OSM and the State, with the concurrence of any Federal agency involved, and without amendment to this Agreement.

2. DOR will assume responsibility for the analysis, review and approval, disapproval, or conditional approval of the permit application component of the PAP required by 30 CFR 740.13 for surface coal mining and reclamation operations in Indiana on Federal lands not requiring a mining plan pursuant to the Mineral Leasing Act (MLA). DOR will review the PAP for compliance with the Program and the OSM approved State Act and regulations. DOR will be the primary point of contact for applicants regarding decisions on the PAP and will be responsible for informing the applicant of determinations.

3. The Secretary will make his determinations under SMCRA that cannot be delegated to the State. Of which have been delegated to OSM.

4. OSM and DOR will coordinate with each other during the review process as needed. OSM will provide technical assistance to DOR when requested, if available resources allow. DOR will keep OSM informed of findings made during the review process which bear on the responsibilities of OSM or other Federal agencies. OSM may provide assistance to DOR in resolving conflicts with Federal land management agencies. OSM will be responsible for ensuring that any information OSM receives from an applicant is promptly sent to DOR. OSM will have access to DOR files concerning operations on Federal lands. OSM will send to DOR copies of all resulting correspondence between OSM and the applicant that may have a bearing on decisions regarding the PAP. The Secretary reserves the right to act independently of DOR to carry out his responsibilities under laws other than SMCRA.

5. DOR will make a decision on approval, disapproval or conditional approval of the permit on Federal lands.

(a) Any permit issued by DOR will incorporate any lawful terms or conditions imposed by the Federal land management agency, including conditions relating to post-mining land use, and will be conducted in compliance with the requirements of the Federal land management agency.

(b) The permit will include lawful terms and conditions required by other applicable Federal laws and regulations.

(c) After making its decision on the PAP, DOR will send a notice to the applicant, OSM, the Federal land management agency, and any agency with jurisdiction or responsibility over Federal lands affected by the operations proposed in the PAP. A copy of the permit and written findings will be submitted to OSM upon request.

C. Review Procedures Where Leased Federal Coal Is Involved:

1. DOR will assume the responsibilities listed in 30 CFR 740.4(c)(1), (2), (3), (4), (6) and (7), to the extent authorized.

In accordance with 30 CFR 740.4(c)(1), DOR will assume responsibility for the analysis, review and approval, or conditional approval of the permit application component of the PAP for surface coal mining and reclamation operations in Indiana where a mining plan is required, including applications for revisions, renewals and transfer sale and assignment of such permits. OSM will, at the request of the State, assist to the extent possible in this analysis and review.

DOR will be the primary point of contact for applicants regarding the review of the PAP for compliance with the Program and State law and regulations.

DOR will be responsible for informing the applicant of all joint State-Federal determinations.

DOR will to the extent authorized, consult with the Federal land management agency and the Bureau of Land Management (BLM) pursuant to 30 CFR 740.4(c)(2) and (3), respectively. On matters concerned exclusively with regulations under 43 CFR part 3480, Subparts 3480 through 3487, BLM will be the primary contact with the applicant. BLM will inform DOR of its actions and provide OR with a copy of documentation on all decisions.

DOR will send the OSM copies of any correspondence with the applicant and any information received from the applicant regarding the PAP. OSM will send to DOR copies of all correspondence with the applicant which may have a bearing on the PAP. As a matter of practice, OSM will not independently initiate contacts with applicants regarding completeness or deficiencies of the PAP with respect to matters covered by the Program.

DOR will also be responsible for obtaining the comments and determinations of other Federal agencies with jurisdiction or responsibility over Federal lands affected by the operations proposed in the PAP. DOR will request all Federal agencies to furnish their findings or any requests for additional information to DOR within 45 days of the date of receipt of the PAP. OSM will assist DOR in obtaining this information, upon request of DOR.

DOR will be responsible for approval and release of performance bonds under 30 CFR 70581 Federal Register / Vol. 64, No. 242 / Friday, December 17, 1999 / Rules and Regulations
740.4(c)(4) in accordance with Article IX of this Agreement, and for review and approval under 30 CFR 740.4(c)(6) of exploration operations not subject to 43 CFR Part 3480, Subparts 3480–3487.

DOR will prepare documentation to comply with the requirements of NEPA under 30 CFR 740.4(c)(7); however, OSM will retain the responsibility for the exceptions in 30 CFR 740.4(c)(7)(i)–(vii).

2. The Secretary will concurrently carry out his responsibilities under 30 CFR 740.4(a) that cannot be delegated to DOR under the Federal lands program, MLA, the National Environmental Policy Act (NEPA), this Agreement, and other applicable Federal laws. The Secretary will carry out these responsibilities in a timely manner and will avoid to the extent possible, duplication of the responsibilities of the State as set forth in this Agreement and the Program. The Secretary will consider the information in the PAP and, where appropriate, make decisions required by SMCRA, MLA, NEPA, and other Federal laws.

Responsibilities and decisions which can be delegated to the State under other applicable Federal laws may be specified in working agreements between OSM and DOR, with concurrence of any Federal agency involved, and without amendment to this Agreement.

Where necessary to make the determination to recommend that the Secretary approve the mining plan, OSM will consult with and obtain the concurrences of the BLM, the Federal land management agency and other Federal agencies as required.

The Secretary reserves the right to act independently of DOR to carry out his responsibilities under laws other than SMCRA or provisions of SMCRA not covered by the Program, and in instances of disagreement over SMCRA and the Federal lands program.

3. OSM will assist DOR in carrying out DOR’s responsibilities by:

(a) Coordinating resolution of conflicts and difficulties between DOR and other Federal agencies in a timely manner.

(b) Assisting in scheduling joint meetings, upon request, between State and Federal agencies.

(c) Where OSM is assisting DOR in reviewing the PAP, furnishing to DOR the work product within 50 calendar days of receipt of the State’s request for such assistance, unless a different time is agreed upon by OSM and DOR.

(d) Exercising its responsibilities in a timely manner, governed to the extent possible by the deadlines established in the Program.

4. Review of the PAP:

(a) OSM and DOR will coordinate with each other during the review process as needed. DOR will keep OSM informed of findings and technical analyses made during the review process which bear on the responsibilities of OSM or other Federal agencies. OSM will ensure that any information it receives which has a bearing on decisions regarding the PAP is promptly sent to DOR.

(b) DOR will review the PAP for compliance with the Program and State law and regulations.

(c) OSM will review the operation and reclamation plan portion of the permit application, and any other appropriate portions of the PAP for compliance with the non-delegable responsibilities of SMCRA and for compliance with the requirements of other Federal laws and regulations.

(d) OSM and DOR will develop a work plan and schedule for PAP review and each will identify a person as the project leader. The project leaders will serve as the primary points of contact between OSM and DOR throughout the review process. Not later than 50 days after receipt of the PAP, unless a different time is agreed upon, OSM will furnish DOR with its review comments on the PAP and specify any requirements for additional data. To the extent practicable, DOR will provide OSM all available information that may aid OSM in preparing any findings.

(e) DOR will prepare a State decision package, including written findings and supporting documentation, indicating whether the PAP is in compliance with the Program. The review and finalization of the State decision package will be conducted in accordance with procedures for processing PAPs agreed upon by DOR and OSM.

(f) DOR may make a decision on approval or disapproval of the permit on Federal lands in accordance with the Program prior to the necessary Secretarial decision on the mining plan, provided that DOR advises the operator in the permit that Secretarial approval of the mining plan must be obtained before the operator may conduct coal development or mining operations on the Federal lease. DOR will reserve the right to amend or rescind any requirements of the permit to conform with any terms or conditions imposed by the Secretary in his approval of the mining plan. (g) The permit will include, as applicable, terms and conditions required by the lease issued pursuant to the MLA and by any other applicable Federal laws and regulations, including conditions imposed by the Federal land management agency relating to post-mining land use, and those of other affected agencies, and will be conditioned on compliance with the requirements of the Federal land management agency with jurisdiction.

(h) After making its decision on the PAP, DOR will send a notice to the applicant, OSM, the Federal land management agency, and any agency with jurisdiction or responsibility over Federal lands affected by operations proposed in the PAP. A copy of the written findings and the permit will also be submitted to OSM.

5. OSM will provide technical assistance to DOR when requested, if available resources allow. OSM will have access to DOR files necessary to comply with 30 CFR parts 842 and 843 and its obligations under laws other than SMCRA.

D. OSM will give DOR reasonable notice of its intent to conduct an inspection under 30 CFR 842.11 in order to provide State inspectors with an opportunity to join in the inspection.

When OSM is responding to a citizen complaint of an imminent danger to the public health and safety, or of significant, imminent environmental harm to land, air or water resources, pursuant to 30 CFR 842.11(b)(1)(i)(C), it will conduct DOR to no less than 24 hours prior to the Federal inspection, if practicable, to facilitate a joint Federal/State inspection. All citizen complaints which do not involve an imminent danger or significant, imminent environmental harm will be referred to DOR for action. The Secretary reserves the right to conduct inspections without prior notice to DOR to carry out his responsibilities under SMCRA.

Article VIII: Enforcement

A. DOR will have primary enforcement authority under SMCRA concerning...
Article X: Designating Land Areas Unsuitable for all or Certain Types of Surface Coal Mining and Reclamation Operations and Activities and Valid Existing Rights (VER) and Compatibility Determinations

A. Unsuitability Petitions

1. Authority to designate Federal lands as unsuitable for mining pursuant to a petition, including the authority to make substantial legal and financial commitment determinations pursuant to section 522(e)(6) of SMCRA, is reserved to the Secretary.

2. When either DOR or OSM receives a petition to designate land areas unsuitable for all or certain types of surface coal mining operations that could impact adjacent Federal or non-Federal lands pursuant to section 522(c) of SMCRA, the agency receiving the petition will notify the other of its receipt and the anticipated schedule for reaching a decision, and request and fully consider data, information and recommendations of the other. OSM will coordinate with the Federal land management agency with jurisdiction over the petition area, and will solicit comments from the agency.

B. Valid Existing Rights and Compatibility Determinations

The following actions will be taken when requests for determinations of VER pursuant to section 522(e) of SMCRA or for determinations of compatibility pursuant to section 522(e)(2) of SMCRA, and received prior to or at the time of submission of a PAP that involves surface coal mining and reclamation operations and activities:

1. For Federal lands within the boundaries of any areas specified under section 522(e)(1) of SMCRA, OSM will determine whether VER exists for such areas.

   For private in holdings within section 522(e)(1) areas, DOR, with the consultation and concurrence of OSM, will determine whether surface coal mining operations on such lands will or will not affect the Federal interest (Federal lands as defined in section 701(4) of SMCRA). OSM will process VER determination requests on private in holdings within the boundaries of section 522(e)(1) areas where surface coal mining operations affects the Federal interest.

2. For Federal lands within the boundaries of any national forest where proposed operations are prohibited or limited by section 522(e)(2) of SMCRA and 30 CFR 761.11(b), OSM will make the VER determinations. OSM will process requests for determinations of compatibility under section 522(e)(2) of SMCRA.

3. For Federal lands, DOR will determine whether any proposed operation will adversely affect any publicly owned park, and, in consultation with the State Historic Preservation Officer, places listed in the National Register of Historic Sites, with respect to the prohibitions or limitations of section 522(e)(3) of SMCRA. DOR will make the VER determination for such lands using the State Program. DOR will coordinate with any affected agency or agency with jurisdiction over the proposed surface coal mining and reclamation operations.

In the case that VER is determined not to exist under section 522(e)(3) of SMCRA or 30 CFR 761.11(c), no surface coal mining operations will be permitted unless jointly approved by DOR and the Federal, State or local agency with jurisdiction over the publicly owned park or historic place.

4. DOR will process and make determinations of VER on Federal lands, using the State Program, for all areas limited or prohibited by section 522(e)(4) and (5) of SMCRA as unsuitable for mining. For operations on Federal lands, DOR will coordinate with any affected agency or agency with jurisdiction over the proposed surface coal mining and reclamation operation.

Article XI: Termination of Cooperative Agreement

This Agreement may be terminated by the Governor or the Secretary under the provisions of 30 CFR 745.15.

Article XII: Reinstatement of Cooperative Agreement

If this Agreement has been terminated in whole or in part it may be reinstated under the provisions of 30 CFR 745.16.

Article XIII: Amendment of Cooperative Agreement

This Agreement may be amended by mutual agreement of the Governor and the Secretary in accordance with 30 CFR 745.14.

Article XIV: Changes in State or Federal Standards

A. The Secretary or the Governor may from time to time promulgate new or revised performance or reclamation requirements or enforcement and administration procedures. Each party will, if it determines it to be necessary to keep this Agreement in force, change or revise its regulations or request necessary legislative action. Such changes will be made under the procedures of 30 CFR part 732 for changes to the Program and under the procedures of section 501 of SMCRA for changes to the Federal lands program.

B. DOR and the Secretary will provide each other with copies of any changes to their respective laws, rules, regulations or standards pertaining to the enforcement and administration of this Agreement.

Article XV: Changes in Personnel and Organization

Each party to this Agreement will notify the other, when necessary, of any changes in personnel, organization and funding, or other changes that may affect the implementation of this Agreement to ensure coordination of responsibilities and facilitate cooperation.

Article XVI: Reservation of Rights

This Agreement will not be construed as waiving or preventing the assertion of any rights that have not been expressly addressed in this Agreement that the State or the Secretary may have under laws other than SMCRA or their regulations including but not limited to those listed in Appendix A.
DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 936

[SPATS No. OK–026–FOR]

Oklahoma Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is approving an amendment to the Oklahoma regulatory program (Oklahoma program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). Oklahoma submitted its bond release guidelines with a policy statement detailing the revegetation success standards for lands reclaimed for use as pastureland and grazingland. Oklahoma also submitted evidence of consultation with the U.S. Soil Conservation Service (SCS) regarding the use of test plots as a statistically valid sampling technique for demonstrating success of productivity on prime farmland.

We announced receipt of the additional information and documentation in the October 22, 1999, Federal Register (64 FR 56983). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of Oklahoma’s additional information and supporting documentation for its bond release guidelines. The public comment period closed on November 22, 1999. Because no one requested a public hearing or meeting, we did not hold one.

III. Director’s Findings

Following, under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are our findings concerning the amendment.

A. Bond Release Guidelines: Section II. Pastureland and Section III. Grazingland; 30 CFR 936.16(c).

In the January 10, 1995, Federal Register, we approved sections II and III of Oklahoma’s bond release guidelines with the following required amendment codified at 30 CFR 936.16(c):

(c) By March 13, 1995, Oklahoma shall revise sections II.B and III.B in the Bond Release Guidelines to identify the method it will use in developing a phase III revegetation success standard for diversity on lands reclaimed for use as pastureland and grazingland.

In its letters dated May 21, 1996, and September 30, 1999 (Administrative Record No. OK–960.04 and OK–984, respectively), Oklahoma included policy statements that identify the
