INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-860 (Preliminary)]

Tin- and Chromium-Coated Steel Sheet From Japan

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission determines,² pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Japan of tin- and chromium-coated steel sheet (as defined by the Department of Commerce (Commerce)), that are alleged to be sold in the United States at less than fair value (LTFV).

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules upon notice from Commerce of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of appearance in the

preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On October 28, 1999, a petition was filed with the Commission and Commerce by Weirton Steel Corp., Weirton, WV; the United Steelworkers of America (USW), AFL-CIO; and the Independent Steelworkers Union (ISU), alleging that an industry in the United States is materially injured and threatened with material injury by reason of LTFV imports of tin- and chromium-coated steel sheet from Japan. Accordingly, effective October 28, 1999, the Commission instituted antidumping investigation No. 731-TA-860 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of November 4, 1999 (64 FR 60225). The conference was held in Washington, DC, on November 18, 1999, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on December 13, 1999. The views of the Commission are contained in USITC Publication 3264 (December 1999), entitled "Tin- and Chromium-Coated Steel Sheet from Japan: Investigation No. 731-TA-860 (Preliminary)."

By order of the Commission.

Issued: December 15, 1999.
