Affected Public: Business or other for-profit; Individuals or households; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 1.924 million.

Total Burden Hours: (Recordkeeping) 2.

Total Annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$0.

Description: This information collection requests clearance of the recordkeeping provisions of section 7(e)(3)(b), of the Fair Labor Standards Act, which permits the exclusion from an employee's regular rate of pay, payments on behalf of an employee to a bona fide thrift or savings plan, profit-sharing plan or trust. The implementing Regulations 29 CFR parts 547 and 549 set forth the requirements for a bona fide thrift or savings plan, profit-sharing plan, or trust.

Agency: Employment Standards Administration.

Title: Request to Be Selected As Payee.

OMB Number: 1215-0166.

Agency Form Number: CM-910.

Frequency: One time.

Affected Public: Individuals or households; Businesses or other for-profit; Not-for-profit institutions; State, Local or Tribal government.

Number of Respondents: 2,350.

Estimated Time Per Respondent: 20 minutes.

Total Burden Hours: 783.

Total Annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$846.

Description: The CM-910 is used to obtain information about prospective representative payees to determine whether they are qualified to handle monetary benefits on behalf of the Black Lung beneficiary.

Agency: Occupational Safety and Health Administration.

Title: Vinyl Chloride (29 CFR 1910.1017).

OMB Number: 1218-0010 (Extension).

Frequency: On occasion.

Affected Public: Business or other for-profit; Federal, State, Local or Tribal Government.

Number of Respondents: 80.

Estimated Time Per Respondent: time for response ranges from approximately 5 minutes for employers to maintain employee exposure monitoring and medical records to 10 hours for employers to provide reports of vinyl chloride emergencies and incidents to the nearest OSHA area office.

Total Burden Hours: 2,978 hours.

Total Annualized capital/startup: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$258,042.

Description: The Vinyl Chloride Standard requires employers to monitor employee exposure to vinyl chloride, to monitor employee health, and to provide employees with information about their exposures and the health effects of exposure to vinyl chloride. In addition, employers must notify OSHA area directors of regulated areas and changes to regulated areas, and of any emergencies that involve vinyl chloride.

Camp-Hill Corporation, McKeesport, Pennsylvania; Notice of Revised Determination on Reconsideration

On May 20, 1999, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on June 3, 1999 (64 FR 29891).

The Department initially denied TAA to workers of Camp-Hill Corporation, McKeesport, Pennsylvania, producing electric resistance welded (ERW) carbon and alloy pipe because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met.

On reconsideration, the Department conducted a customer survey of the sole customer's customers of electric resistance welded (ERW) carbon and alloy pipe. The survey revealed that some of the sole customer's customers were increasing their reliance on

imports of electric resistance welded (ERW) carbon and alloy pipe while reducing purchases from the sole customer.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with electric resistance welded (ERW) carbon and alloy pipe contributed importantly to the declines in sales or production and to the total or partial separation of workers of Camp-Hill Corporation, McKeesport, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers of Camp-Hill Corporation, McKeesport, Pennsylvania engaged in the production of electric resistance welded (ERW) carbon and alloy pipe who became totally or partially separated from employment on or after October 30, 1997 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 30th day of November 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.

Energizer Power Systems; Eveready Battery Company Now Known as Moltech Power Systems, Gainesville, FL; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the U.S. Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on August 28, 1998 applicable to all workers of Energizer Power Systems located in Gainesville, Florida. The notice was published in the **Federal Register** on September 28, 1998 (63 FR 51605). The determination was amended on September 29, 1998 to include workers whose wages were reported under its parent firm, Eveready Battery Company. The amended notice was published in the **Federal Register** on October 9, 1998 (63 FR 54497).

At the request of the company, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production
