**SUPPLEMENTARY INFORMATION:** The project consists of the construction of a 496 megawatt combined cycle electric generation plant in Covington County, Alabama. The preferred site for the plant is adjacent to Alabama Electric Cooperative's McWilliams electric generating plant located in Gantt, Alabama. Associated with the plant will be approximately 18.6 miles of 230 kilovolt transmission line from the proposed plant to Opp, Alabama, and approximately 60 miles of natural gas pipeline from the proposed plant to Flomaton, Alabama. The natural gas pipeline to be constructed and owned by Southeast Alabama Gas District, will traverse Covington, Conecuh, and Escambia Counties, all of which are in Alabama. Alternative sites for the plant location were considered near Alabama Electric Cooperative's Lowman Plant at Leroy in Washington County, Alabama, and at a site in Damascus/Teddy area in Escambia County, Alabama. Three electric transmission line routes and three natural gas pipeline routes were considered.

Alabama Electric Cooperative prepared an environmental report for RUS, which describes the project and assesses its potential environmental impacts. RUS has conducted an independent evaluation of the environmental report, assisted in its completion, and accepted it as the agency's environmental assessment. No significant impacts are expected as a result of the construction and operation of the project.

The environmental assessment can be reviewed at the Andalusia Public Library, South Three Notch Street, Andalusia, Alabama; the White Smith Memorial Library, 213 College Ave., Jackson, Alabama; the Brewton Public Library, 206 Jackson Street, Brewton, Alabama; the headquarters of Alabama Electric Cooperative at the address provided above, or the headquarters of RUS, at the address provided above.

Questions and comments should be sent to RUS at the address provided. RUS will accept questions and comments on the environmental assessment for at least 35 days from the date of publication of this notice.

Any final action by RUS related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal environmental laws and regulations and completion of

environmental review procedures as prescribed by RUS' Environmental Policies and Procedures, 7 CFR Part 1794.
