

being offered for lease/purchase under the Recreation and Public Purposes Act of June 14, 1926, as amended (43 U.S.C. 869 *et seq.*).

Mount Diablo Meridian, Nevada

T. 21 N., R. 70 E.

Sec. 21, NW¼SE¼.

Containing 40 acres, more or less.

The lands are hereby classified for public purpose use as school sites and/or other school facilities, 43 CFR 2410, 2430.4 (a) and (c). The White Pine County School District intends to use the land to construct and operate a kindergarten through twelfth grade school for residents in Pleasant Valley. A right-of-way would also be acquired to access the proposed site.

The lease and/or patent, when finalized, will be subject to the provisions of the Recreation and Public Purposes Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. All valid existing rights documented on the official public land records at the time of lease/patent issuance.
2. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).
3. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

The land is not required for any federal purpose. The classification for lease/purchase is consistent with the Bureau's planning for this area. Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Ely Field Office, HC 33 Box 33500, Ely, Nevada 89301.

Upon publication of this notice in the **Federal Register**, the above described land will be segregated from all other forms of appropriation under the public land law except for Recreation and Public Purposes.

Dated: November 22, 1999.

Federal Land Managers' Air Quality Related Values Work Group (FLAG)

AGENCY: National Park Service, Interior.

ACTION: Notice of comment period extension.

SUMMARY: On November 8, 1999 (64 FR 60831) the National Park Service, in cooperation with the U.S. Fish and Wildlife Service and the U.S. Department of Agriculture Forest Service, announced the availability of, and solicited comments on, the draft *FLAG Phase I Report*. The purpose of this notice is to announce that FLAG has extended the public comment period by 30 days (until February 7, 2000).

The Federal Land Managers' Air Quality Related Values Work Group (FLAG) was formed to develop a more consistent approach for the Federal Land Managers (FLMs), *i.e.*, National Park Service, U.S. Fish and Wildlife Service, and U.S. Department of Agriculture Forest Service, to evaluate air pollution effects on their resources. The FLAG effort focuses on the effects of the air pollutants that could affect the health and status of resources in areas managed by the three agencies, primarily such pollutants as ozone, particulate matter, nitrogen dioxide, sulfur dioxide, nitrates, and sulfates. In Phase I, FLAG formed subgroups that concentrated on four issues: (1) Terrestrial effects of ozone; (2) aquatic and terrestrial effects of wet and dry pollutant deposition; (3) visibility; and (4) process and policy issues. The draft report contains issue-specific technical and policy analyses, recommendations for evaluating air quality related values, and guidelines for completing and evaluating new source review permit applications. These recommendations and guidelines are intended for use by the FLMs, permitting authorities, permit applicants, and other interested parties. The FLMs conducted a public meeting to discuss the FLAG report on December 15, 1999. FLAG presentations made at the public meeting can be downloaded from the FLAG website referenced below.
