

deleted and narrowed overly burdensome questions from FCC Form 347, which is required to be filed when applying for a Low Power Television, TV Translator, or TV Booster Station License. FCC Form 347 will be supplemented with detailed instructions to explain processing standards and rule interpretations to help ensure that applicants certify accurately. These changes will streamline the Commission's processing of FCC Form 347 applications. The Commission also adopted a formal program of pre- and post-application grant random audits to preserve the integrity of our streamlined application process.

The FCC staff use data provided in FCC Form 347 to confirm that the TV facility has been built to terms specified in the outstanding construction permit. The data are also included subsequently in the license to operate the station.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 2,526.

Estimate Time Per Response: 1.0 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 2,526 hours.

Total Annual Costs: None.

Needs and Uses: FCC Form 396-A is filed in conjunction with applicants seeking authority to construct a new broadcast station, to obtain assignment of construction or license, and/or seeking authority to acquire control of an entity holding construction permit or license. This program is designed to assist the applicant in establishing an effective EEO program for its station.

On September 30, 1998, the Commission suspended the requirement that television and radio broadcast licensees and permittees submit the FCC 396-A with their construction permit, transfer, or assignment applications. This suspension is to remain in effect until the Commission revises the EEO rules to be consistent with the Court of Appeals Lutheran Church decision. The Commission will make such adjustments to the form as necessary to conform to the Lutheran Church decision consistent with the record in the rulemaking. Until such time as the Commission reaches a decision in the outstanding Notice of Proposed Rulemaking concerning the Court of

Appeals Lutheran Church decision, the FCC 396-A needs to retain a current OMB Control Number.

The data are reviewed by FCC analysts to determine how stations will provide equal employment opportunity to all qualified persons without regard to race, color, religion, sex, or national origin.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: Head Start Family and Child Experience Survey (FACES).

OMB No.: 0970-0151.

Description: The Administration on Children, Youth and Families (ACYF), Administration for Children and Families (ACF) of the Department of Health and Human Services (DHHS) is requesting Office of Management and Budget (OMB) clearance for interview instruments to be used in the Head Start Family and Child Experience Survey (FACES). This study is being conducted under contract with Westat, Inc., with Ellsworth Associates as their subcontractor to collect information on Head Start performance measures. This revision is intended as follow-on to the current design in order to follow the

sample through the end of their first grade year of school.

FACES currently involves five phases of data collection. The first phase was a Spring, 1997 field test in which approximately 2400 parents and children were studied in a nationally stratified random sample of 40 Head Start programs. The second and third phases occurred in Fall, 1997 (Wave 1) and Spring, 1998 (Wave 2) when data were collected on a sample of 3200 children and families in the same 40 programs. The Spring, 1998 data collection included assessments of both Head Start children completing the program and former Head Start children

completing kindergarten (kindergarten field test), as well as interviews with their parents and ratings by their kindergarten teachers. In the fourth and fifth phases, follow-up continued for a second program year, plus a kindergarten follow-up. The current plan is to extend data collection in Spring of the first-grade year for both cohorts of children, those completing kindergarten in Spring, 1999, and those completing kindergarten in Spring, 2000.

This schedule of data collection is necessitated by the mandates of the Government Performance and Results Act (GPRA) of 1993 (Pub. L. 103-62),

which requires that the Head Start Bureau move expeditiously toward development and testing of Head Start Performance Measures, and by the 1994 reauthorization of Head Start (Head Start Act, as amended, May 18, 1994, Section 649(d)), which requires assessment of Head Start's quality and effectiveness. These mandates were reinforced by the Head Start Act Reauthorization of October, 1998, which called for planning for a study of Head Start children to continue follow-up through first grade.

Respondents: Individuals or Households.
