

Lateral from Dracut, Massachusetts to Londonderry, New Hampshire in Zone 6 of Tennessee's system. AES has committed to firm transportation service for a primary term of twenty years.

Tennessee further states that transportation for AES will be provided under Tennessee's Rate Schedule FT-A.

After the open season, Tennessee indicates that it polled all of its shippers and did not obtain any permanently relinquished capacity that could be used for the proposed service.

Tennessee notes that AES will pay a negotiated rate that is fixed for the primary term of its FT-A service agreement. Further, Tennessee states that it will waive its right to file to change the negotiated rate pursuant to Section 4 of the NGA and AES will waive its right to request a change in its rate pursuant to Section 5 of the NGA. Tennessee requests any other authorizations, relief and/or waivers as the Commission deems necessary to enable Tennessee to perform the activities identified in its application.

Tennessee states that the total estimated cost for the Project is \$32.4 million. Tennessee proposes to place the Project in service by October 1, 2001 and requests that the Commission grant the requested authority by September 1, 2000. Tennessee is not requesting rolled-in rate treatment for the cost of the facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 10, 2000, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if

the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Tennessee to appear or be represented at the hearing.

**David P. Boergers,**  
*Secretary.*

[Docket No. CP00-47-000]

#### Trans-Union Interstate Pipeline, L.P.; Notice of Application

December 20, 1999.

Take notice that on December 10, 1999, Trans-Union Interstate Pipeline, L.P., (Applicant) 4100 Spring Valley, Suite 1001, Dallas, Texas 75244, tendered for filing, an application, pursuant to Section 7(c) of the Natural Gas Act and Subpart A of Part 157 of the Commission's regulations, for a certificate of public convenience and necessity to construct, own, and operate a single use natural gas pipeline facility to transport natural gas from Sharon, Louisiana, to El Dorado, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The application may be viewed on the web at [www.ferc.fed.us/online/rims.htm](http://www.ferc.fed.us/online/rims.htm) (call (202) 208-2222 for assistance).

Applicant indicates that any questions regarding the application herein should be directed to project counsel, Ned Hengerer, at John & Hengerer, 1200 17th Street, N.W., Washington, D.C. 20036, (202) 429-8811.

Applicant proposed to construct, own, and operate, on an end-use basis, 41.7 miles of 30-inch diameter, high pressure natural gas pipeline, beginning at the receipt point interconnections with the interstate system of Texas Gas Transmission Corporation (Texas Gas) at Sharon, Louisiana, and with the extended intrastate system of Gulf States Pipeline (Gulf States) at the same location. Applicant states that the system will first run east out of Claiborne Parish, Louisiana, and then run north through Union Parish,

Louisiana, crossing into Union County, Arkansas, just east of Junction City, Arkansas, and continue north, passing to the east of El Dorado, Arkansas. Applicant further states that its system will terminate at its only delivery point, the gas fired 2,700 megawatt electric power generation facility being developed by Union Power Partners (UPP), an affiliated entity, to be located three miles northeast of El Dorado, Arkansas.

Applicant further requests that the Commission waive all the regulatory requirements imposed on Part 284 open-access interstate pipelines, including but not limited to: (1) Commission approved open-access rates and tariffs; (2) § 157.6(b)(8) cost and rate data submission; (3) Part 201 Uniform System of Accounts; and (4) Part 250 and 260 reporting requirements.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, by or before January 10, 2000, in accordance with Sections 285.214 and 385.211 of the Commission's Rules and Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make Protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
