Science Advisory Board; Public Advisory Committee Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Integrated Risk Project Peer Review Subcommittee, a subcommittee comprised of members from the Research Strategies Advisory Committee (RSAC) of the Science Advisory Board (SAB) and the Board of Scientific Counselors (BOSC) of the Office of Research and Development (ORD), will meet on Wednesday and Thursday, January 12 and 13, 2000 in room 4630 at the U.S. Environmental Protection Agency (US EPA), Ariel Rios Building, 1200 Pennsylvania Avenue, NW, Washington, DC. The meeting will begin at 8:30 am and end no later than 5:30 pm each day. The meeting is open to the public; however, seating is limited and available on a first-come basis.

Purpose of the Meeting

The purpose of this meeting is to review the Office of Research and Development's Science To Achieve Results (STAR) Program.

Proposed Charge

The Subcommittee has been asked to address the following issues: (1) Is the STAR Program structured to support outstanding scientists and technically meritorious research? Is the outreach to potential applicants, the review of proposals, and the management of awards structured to foster high quality science?; (2) Is the STAR Program

effectively integrated with ORD's in-house programs and with other EPA programs? Are the topics for STAR solicitations selected consistent with the priorities identified in the Agency's Strategic Plan? Are there other opportunities where the STAR Program could significantly contribute to the Agency's strategic goals?; (3) Is the STAR Program communicating well within the Agency, with the external scientific and regulatory communities, and with other stakeholders? Is there sufficient leveraging and coordination of research efforts?; (4) What systems should be in place to monitor the Program's impacts, costs, credibility, and effectiveness, and to what extent are these in place already? What metrics of success should be developed to determine the effectiveness of grants in terms of impacts on agency decisions? What information should be collected today on metrics of success for the STAR grants? How should program offices and other agency customers for the grant products be involved in the establishment of criteria for measuring the impacts of the program?

For Further Information Concerning the Meeting

Members of the public desiring additional information about the meeting should contact Dr. John R. Fowle III, Designated Federal Officer, Research Strategies Advisory Committee, Science Advisory Board (1400A), U.S. EPA, Ariel Rios Building, 1200 Pennsylvania Avenue, NW, Washington, DC 20460; telephone/voice mail at (202) 564-4547; fax at (202) 501-0323; or via e-mail at fowle.jack@epa.gov or Ms. Shirley Hamilton, Designated Federal Officer, Board of Scientific Counselors, Office of Research and Development (8701R), U.S. EPA, Ariel Rios Building, 1200 Pennsylvania Avenue, NW, Washington, DC 20460; telephone/voice mail at (202) 564-6853; fax at (202) 565-2444; or via email at hamilton.shirley@epa.gov. III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA, provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before June 26, 2000. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received by the Agency. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exception to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the

products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.
