

management measures set forth in the Plan.

The Services will conduct an environmental review of the Plan and prepare an EIS. The environmental review will analyze the proposal as well as a full range of reasonable alternatives and the associated impacts of each. The Services are currently in the process of developing alternatives for analysis. Alternatives thus far include a No Action alternative and one Plan alternative. The scoping process will be used to identify additional alternatives.

The Plan alternative proposes that the Services issue incidental take permits and that Storedahl implement the Plan on approximately 300 acres. This action would apply various conservation measures and actions that meet or exceed the environmental and conservation standards and guidelines of the Washington Surface Mining Act, other state laws and regulations and applicable county regulations. In effect, the Services would issue a Permit and Storedahl would manage their lands in accordance with the conservation standards, guidelines and regime set forth in the Plan, including conveyance of lands to non-profit organizations or granting of conservation easements, or both.

Under the No Action alternative, a permit would not be issued by the Services and Storedahl would continue ongoing processing activities and undertake to resume mining at the site, implementing both so as to avoid take of federally listed species. However, such an alternative would likely not address long-term conservation measures, such as the granting of conservation easements or conveying real property to non-profit organizations.

Comments and suggestions are invited from all interested parties to ensure that the full range of issues related to these proposed actions are addressed and that all significant issues are identified. Comments or questions concerning this proposed action and the environmental review should be directed to FWS or NMFS (see **ADDRESSES**).

The environmental review of this project will be conducted in accordance with the requirements of NEPA (42 U.S.C. 4321 et seq.), Council on Environmental Quality regulations (40 CFR parts 1500-1508), other appropriate Federal laws and regulations, and policies and procedures of the Services for compliance with those regulations. It is estimated that the draft EIS will be available for public review during the first quarter of calendar year 2000.

Dated: December 13, 1999.

Anne Badgley,

Regional Director, Region 1, U.S. Fish and Wildlife Service, Portland, Oregon.

Dated: December 17, 1999.

Wanda L. Cain,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Availability (NOA) of the Final Environmental Impact Statement for Approval of Land Use and Real Estate Investment Strategies in support of Real Property Master Planning at Fort Huachuca, Arizona

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability (NOA).

SUMMARY: This announces the availability of the Final Environmental Impact Statement (FEIS) which assesses the potential environmental impacts of the approval of updates to three components of the Fort Huachuca Real Property Master Plan (RPMP), and the authorization of the steps leading to project implementation.

DATES: Written comments received within 30 days of the publication of the Environmental Protection Agency's NOA for this action will be considered by the Army during final decision making.

ADDRESSES: To obtain copies of the FEIS, contact Commander, U.S. Army Garrison, Attn: ATZS-ISB (FEIS/Ms).
