BILLING CODE 7025–01–P

DEPARTMENT OF THE INTERIOR

Geological Survey

Federal Geographic Data Committee (FGDC); Application Notice Announcing the Opening Date for Transmittal of Applications Under the FGDC National Spatial Data Infrastructure (NSDI) Partnership Funding Programs for Fiscal Year (FY) 2000

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice inviting applications for the NSDI Cooperative Agreements Program (CAP) awards for Fiscal Year 2000, with performance to begin in August 2000.

SUMMARY: The purpose of the FGDC National Spatial Data Infrastructure (NSDI) Partnership Funding Programs is to facilitate and foster partnerships, alliances and technology within and among various public and private entities to assist in building the NSDI. The NSDI consists of technologies, policies, organizations and people necessary to promote cost-effective production, ready availability, and greater utilization of high quality geospatial data among a variety of sectors, disciplines and communities.

The FY 2000 NSDI Cooperative Agreements Program funds projects in three categories of activities. The first category (“Don’t Duck Metadata”) promotes metadata collection, metadata publication (via a clearinghouse access of geographic data linked to the Internet), and activities that support the transition from the FGDC Content Standard for Digital Geospatial Metadata to the ISO Metadata Standard 19115 (under development). The second category (“Framework Community Implementations”) promotes addressing of community issues and decision-making utilizing basic geographic data (NSDI Framework). The third category (“Web Mapping Testbeds”) category funds projects that test the OpenGIS Consortium’s Web Mapping Testbed specifications.

Applications may be submitted by Federal agencies, State and local government agencies, educational institutions, private firms, non-profit foundations, and Federally acknowledged or state-recognized Native American tribes or groups. Applications from Federal agencies will not be competed against applications from other sources. Authority for this program is contained in the Organic Act of March 3, 1879, 43 U.S.C. 31 and Executive Order 12906.
