

carry United States-style features, such as single-ticket data input, settlement of contracts at current market value, the facilitation of substitutions, and the admission of inter-dealer brokers. These features have proven very successful of the U.S. Government debt market in the United States.

GSCC's management role in ESCC will further ensure that the RepoClear service will use, to the extent appropriate, GSCC's mark-to-market and margining methodologies to provide comprehensive, uniform risk management processes. GSCC intends to help ensure that: (i) Processing efficiencies will be attained through the utilization of standardized SWIFT message formats for input and output; (ii) participants' margin requirements will be reduced through cross-margining both their European Government securities activity and their combined United States and European activity;⁸ (iii) participants' balance sheets will be reduced and they will experience increased capital utilization through a maximization of the offsets available from repo and reverse repo activity; and (iv) the RepoClear service will support global electronic trading systems, allowing for more efficient settlement of cash and futures activities engaged in side-by-side through coordinated mark-to-market and margining processes and standardized clearance and settlement practices and through optimized cross-margining of correlated positions.

GSCC believes that the proposed rule change is consistent with the requirements of Section 17A of the Act⁹ and the rules and regulations thereunder applicable to GSCC because it should help to ensure that United States organizations operating abroad either directly or through their European affiliates obtain the significant netting, risk management, and other services and associated benefits that GSCC provides in the United States.

(B) Self-Regulatory Organization's Statement on Burden on Competition

GSCC does not believe that the proposed rule change will have any impact or impose any burden on completion.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed rule change have not yet been

solicited or received. GSCC will notify the Commission of any written comments received by GSCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Diversity, Freedom and Democracy Guidelines

Pursuant to the Bureau's authorizing legislation, programs must maintain a

non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, religion, geographic location, socio-economic status, and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the "Support for Diversity" section for specific suggestions on incorporating diversity into the total proposal. Public Law 104–319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy," the Bureau "shall take appropriate steps to provide opportunities for participation in such programs to human rights and democracy leaders of such countries." Proposals should reflect advancement of this goal in their program contents, to the full extent deemed feasible.

Year 2000 Compliance Requirement (Y2K Requirement)

The Year 2000 (Y2K) issue is a broad operational and accounting problem that could potentially prohibit organizations from processing information in accordance with Federal management and program specific requirements including data exchange with USIA. The inability to process information in accordance with Federal requirements could result in grantees' being required to return funds that have not been accounted for properly.

The Bureau of Educational and Cultural Affairs therefore requires all organizations use Y2K compliant systems including hardware, software, and firmware. Systems must accurately process data and dates (calculating, comparing and sequencing) both before and after the beginning of the year 2000 and correctly adjust for leap years.

Additional information addressing the Y2K issue may be found at the General Services Administration's Office of Information Technology website at <http://www.itpolicy.gsa.gov>.

Review Process

The Bureau will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines stated herein and in the Solicitation Package. All eligible proposals will be reviewed by the program office, as well as the Public

Affairs section overseas, where appropriate. Eligible proposals will be forwarded to panels of Department of State officers for advisory review. Proposals may also be reviewed by the Office of the Legal Adviser or by other elements of the Department. Final funding decisions are at the discretion of the Department of State's Under Secretary for Public Diplomacy and Public Affairs. Final technical authority for assistance awards (grants or cooperative agreements) resides with the Bureau's Grants Officer.

Review Criteria

Technically eligible applications will be competitively reviewed according to the criteria stated below. These criteria are not rank ordered and all carry equal weight in the proposal evaluation:

1. **International Student and Academic Support:** Proposals should describe support services provided by the institution and department/school for international students including monitoring and evaluation of students and program.

2. **Ability to Provide Cultural Enrichment and Community Outreach Opportunities:** Proposals should demonstrate a commitment to planning, implementing, and supporting the Bosnian students in participating in cultural, social, and community outreach opportunities.

3. **Support of Diversity:** Proposals should demonstrate the recipient's commitment to promoting the awareness and understanding of both geographic and ethnic diversity.

4. **Institution's Record/Ability:** Proposals should demonstrate an institutional record of strong academic programs and successful exchange programs. This includes responsible fiscal management and full compliance with all reporting requirements for past ECA (formerly USIA) grants as determined by ECA's Office of Contracts. The Bureau will consider the past performance of prior recipients and the demonstrated potential of new applicants.

5. **Cost Effectiveness:** Proposals should indicate a high level of cost sharing and a competitive level of cost per individual student for the ECA.
