Sec. 34, NW¹/₄NW¹/₄SW¹/₄.
Containing 10.00 acres.

The classification made pursuant to the Act of June 14, 1926, as amended (43 U.S.C. 869 *et. seq.*), segregated the public land from all other forms of appropriation under the public land laws, including location under the United States mining laws, but not leasing under the mineral leasing laws. The land was previously leased to Mineral County for a sanitary landfill. The lease has expired and the classification no longer serves any purpose.

At 10 a.m. on February 7, 2000, the land will become open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on February 7, 2000, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

At 10 a.m. on February 7, 2000, the land will also be open to location under the United States mining laws. Appropriation of lands under the general mining laws prior to the date

and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determination in local courts.
