

Spanish, Korean, Chinese, Tagalog, and Vietnamese. The Census Bureau anticipates that many of the non-English speaking respondents will use these programs. However, others may not use these programs for a variety of different reasons (*i.e.*, lack of awareness, fear, apathy, *etc.*).

The U.S. Census Bureau would like to better understand how non-English speaking respondents cope with the Census. To do this the Census Bureau is proposing to conduct a follow-up interview of long-form respondents that indicate they speak a language other than English at home. The types of information collected during the interview will address their awareness of the QACs, Be Counted forms, and LAGs; their ability to have completed the questionnaire on their own (*i.e.* did the non-English speaking respondent obtain help from a neighbor or someone else that speaks English?); and the language of the interview in Nonresponse Follow-up (NRFU).

## II. Method of Collection

The reinterview will be conducted by telephone with specially trained bilingual interviewers. A telephone reinterview of approximately 5,000 cases will be conducted to result in approximately 1,000 completed cases for each of three languages. The reinterview will be done in Spanish, one language to be selected from the remaining four in which there are non-English questionnaires (Korean, Chinese, Tagalog, and Vietnamese), and one other language to be selected from those that have no non-English questionnaires. We plan to select the language groups for which the census process is expected to be most difficult based on linguistic isolation and other potential barriers to enumeration. The prevalence of the non-English language will also be a decision factor. The sample will be post-stratified based on the mode of response (*i.e.*, English form, non-English form, or enumerator form). We will conduct this operation in two waves with the first wave composed of those respondents returning a form through the mail, and the second wave composed of those respondents enumerated in NRFU. In the reinterview, we will attempt to determine: (1) If the respondents were aware of the QACs, LAGs, and Be Counted Forms, (2) Why the respondents did or did not use those services, and (3) For those responding in English yet indicating they do not speak English well, it is desired to know from whom they obtained assistance. The interviews will be performed May–July 2000, after the availability of the

appropriate data files from which the sample will be obtained.

#### Background

On September 15, 1998, the Department published an antidumping duty order on stainless steel wire rod from Sweden (63 FR 49329). On September 30, 1999, the above-mentioned producer/exporter requested an administrative review of the antidumping duty order on stainless steel wire rod from Sweden covering the period of March 5, 1998, through August 31, 1999. In accordance with 19 CFR 351.221(c)(1)(i), we published the initiation of the review on November 4, 1999 (64 FR 60161). On December 22, 1999, Fagersta Stainless AB ("Fagersta") withdrew its request for review.

#### Rescission of Review

The Department's regulations at 19 CFR 351.213(d)(1) provide that the Department may rescind an administrative review if a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review. Fagersta withdrew its request for an administrative review on December 22, 1999, which is within the 90-day deadline.

Therefore, the Department has determined to grant the request to rescind this administrative review with respect to Fagersta.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).
