National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Proposed deletion of the Renora, Inc., Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) proposes to delete the Renora, Inc., Superfund Site which is located in the Edison Township, Middlesex County, New Jersey from the National Priorities List (NPL) and requests public comment on this action. The NPL constitutes appendix B of 40 CFR part 300, the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) as amended. The EPA and the New Jersey Department of Environmental Protection have determined that the Site poses no significant threat to public health or the environment, as defined by CERCLA; and therefore, further remedial measures pursuant to CERCLA are not appropriate.

We are publishing this without prior proposal notice, because the Agency views this as a noncontroversial revision and anticipates no significant adverse or critical comments. A detailed rationale for this approval is set forth in the direct final rule. If no significant adverse or critical comments are received, no further activity is contemplated. If EPA receives significant adverse or critical comments, the direct final action will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

DATES: Comments concerning this action must be received by February 18, 2000.

ADDRESSES: Comments should be submitted to: Grisell V. Diaz-Cotto, Remedial Project Manager, Emergency and Remedial Response Division, U.S. Environmental Protection Agency, Region II, 290 Broadway, 19th Floor, New York, New York 10007-1866.
