#### **II. What Action is the Agency Taking?**

EPA is making available for comment an options paper on exclusive use and data compensation rights for data submitted to the Agency in support of tolerance and tolerance exemption actions. As part of the Food Quality Protection Act of 1996, Congress amended section 408(i) of the Federal Food, Drug, and Cosmetic Act (FFDCA) addressing such rights. The Agency is currently evaluating how to implement this new provision and is seeking public comment. The options paper briefly discusses the new section 408(i) of the FFDCA and the Agency's practices regarding data compensation and exclusive use; the current compensation and exclusive use process the Agency implements under section 3 of the FIFRA, and presents three options for implementing the new provision. The options represent different interpretations focusing on who the data submitters may be. However, the Agency also seeks comments on other interpretations of section 408(i) and suggested procedures for implementing any option. Commenters are particularly encouraged to offer suggestions for

workable procedures for their preferred options.

EPA will consider the comments received and develop a detailed proposal for implementing data rights under section 408(i) of FFDCA.
