

have been previously approved by the Office of Management and Budget under OMB No. 0581-0178. The forms require information which is readily available from handler records and which can be provided without data processing equipment or trained statistical staff. As with other marketing order programs, reports and forms are periodically reviewed to reduce or eliminate duplicate information collection burdens by industry and public sector agencies. This interim final rule does not change those requirements. In addition, the Department has not identified any relevant Federal rules that duplicate, overlap or conflict with this regulation.

Further, the Board's meeting was widely publicized throughout the hazelnut industry and all interested persons were invited to attend the meeting and participate in Board deliberations. Like all Board meetings, the November 15, 1999, meeting was a public meeting and all entities, both large and small, were able to express their views on this issue. The Board itself is composed of 10 members, of which 4 are handlers, 5 are producers, and one is a public member. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at the following website: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the Board's recommendation, and other information, it is found that this interim final rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Any comments received will be considered prior to finalization of this rule.

Pursuant to 5 U.S.C. 553, it is also found and determined, upon good cause, that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) The 1999-2000 marketing year began July 1, 1999, and the percentages established herein apply to all merchantable hazelnuts handled from the beginning of the crop year; (2)

handlers are aware of this rule, which was recommended at an open Board meeting, and need no additional time to comply with this rule; and (3) interested persons are provided a 60-day comment period in which to respond, and all comments timely received will be considered prior to finalization of this action.
