

mixed and shared funding may be appropriate. Each Fund will disclose in its prospectus that: (a) shares of the Fund may be offered to insurance company separate accounts of both annuity and life insurance variable contracts, and to Plans; (b) due to differences of tax treatment and other considerations, the interests of various Contract holders participating in the Fund and the interests of Plans investing in the Fund may conflict; and (c) the Board will monitor such Fund for any material conflicts of interest and determine what action, if any, should be taken.

9. Each Fund will comply with all provisions of the 1940 Act requiring voting by shareholders (which, for these purposes, shall be the persons having a voting interest in the shares of the respective Fund), and, in particular, each Fund will either provide for annual meetings (except to the extent that the Commission may interpret Section 16 of the 1940 Act not to require such meetings), or comply with Section 16(c) of the 1940 Act (although the Funds are not within the trusts described in Section 16(c) of the 1940 Act), as well as with Section 16(a), and, if applicable, Section 16(b) of the 1940 Act. Further, each Fund will act in accordance with the Commission's interpretation of the requirements of Section 16(a) with respect to periodic elections of directors (or trustees) and with whatever rules the Commission may promulgate with respect thereto.

10. If and to the extent Rules 6e-2 and 6e-3(T) are amended (or Rule 6e-3 under the 1940 Act is adopted) to provide exemptive relief from any provision of the 1940 Act or the rules promulgated thereunder with respect to mixed or shared funding on terms and conditions materially different from any exemptions granted in the order requested by Applicants, then the Funds shall and the Participating Insurance Companies, as appropriate, shall be required to take such steps as may be necessary to comply with Rules 6e-2 and 6e-3(T), as amended, or Rule 6e-3, as adopted, to the extent applicable.

11. No less than annually, the Adviser (or any other investment adviser of a Fund) the Participating Insurance Companies and Participating Plans shall submit to the Boards such reports, materials or data as such Boards may reasonably request so that the Boards may fully carry out obligations imposed upon them by the conditions contained in the application. Such reports, materials and data shall be submitted more frequently if deemed appropriate by the applicable Boards. The obligations of the Adviser, Participating

Insurance Companies and Participating Plans to provide these reports, materials and data to the Boards, shall be a contractual obligation of the Adviser, all Participating Insurance Companies and Participating Plans under their agreements governing participation in the Funds.

12. If a Plan or Plan participating shareholder should become an owner of 10% or more of the issued and outstanding shares of a Fund, such Plan will execute a participation agreement with such Fund, including the conditions set forth herein to the extent applicable. A Plan or Plan participant shareholder will execute an application containing an acknowledgment of this condition at the time of its initial purchase of shares of the Fund.

Conclusion

For the reasons summarized above, Applicants assert that the requested exemptions are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the 1940 Act.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,
Deputy Secretary.

National Highway Traffic Safety Administration

[Docket No. NHTSA-98-3848; Notice 3]

**Beall Trailers of Washington, Inc.;
Petition for Renewal of Temporary
Exemption From Federal Motor Vehicle
Safety Standard No. 224**

Beall Trailers of Washington, Inc., of Kent, Washington, ("Beall"), a wholly-owned subsidiary of Beall Corporation, has asked us to renew, for three years, the temporary exemption we granted it in July 1998 from Federal Motor Vehicle Safety Standard No. 224 *Rear Impact Protection*. The basis of the petition is that compliance would cause substantial economic hardship to a manufacturer that has tried in good faith to comply with the standard.

We are publishing this notice of receipt of the petition in accordance with our regulations on the subject. This action does not represent that we have made any judgment about the merits of the petition.

On July 8, 1998, we granted Beall's initial exemption petition, assigning it NHTSA Temporary Exemption No. 98-5, expiring July 1, 1999 (63 FR 36989). On April 20, 1999, we received Beall's application for renewal, which was filed in time to stay the expiration date of the exemption, as provided by 49 CFR 555.8(e). Following our request, Beall provided more current financial and production information on October 28, 1999 to supplement its new petition.

Beall manufactures and sells dump body trailers. It (identified in the petition as "Truckweld") produced a total of 311 trailers in 1997, of which 124 were dump body types. Truckweld trailer production in 1998 was down to 135 units but the number of dump body types was not stated.

Standard No. 224 requires, effective January 26, 1998, that all trailers with a GVWR of 4536 Kg or more, including dump body types, be fitted with a rear

impact guard that conforms to Standard No. 223 *Rear impact guards*. Beall argued earlier that "alterations may have to be made to the trailer chassis or even raising the dump box to provide space for the retractable guard," indicating that a guard that retracts when the dump body is in operation is the solution it is seeking in order to comply. During the time that its exemption has been in effect, Beall "has, in good faith, made attempts to design a compliant device." It states that it has developed "a number of potential designs" including an articulating design, but "these devices * * * do not meet FMVSS 224, have interferences with paving equipment, or have severe maintenance issues." The company is still testing hinged, retractable devices but three issues must be overcome. First, space for a retracted device is not readily available "due to the clearance issues in connecting to pavers." Raising the box also raises the center of gravity and reduces the stability of the trailers "thereby endangering others." Second, "asphalt service will, over a period of time, render such devices unusable." Finally, "it would be possible to operate a trailer with these type (sic) of devices in the retracted position, therefore not in compliance." It will continue its efforts to conform during the three-year exemption period it has requested.

If a renewal of the exemption is not granted, substantial economic hardship will result. First, it would lose a trailer that accounts for 40 percent of its overall production. In addition, "some percentage of the remaining 60% would be lost since our customers typically purchase matching truck mounted dump bodies which may also be lost." It also believes that 31 of its 63 employees would have to be laid off if its application is denied. It argues that maintenance of full employment would be in the public interest. Beall's net income was \$39,317 in fiscal year 1995, \$72,213 in 1996, \$697,040 before income taxes in 1997, and \$326,255 in 1998.

We welcome your written comments on Beall's petition. Please send three copies, headed with the docket and notice number shown at the top of this document, and addressed to: Docket Management, National Highway Traffic Safety Administration, Room PL-401, 400 Seventh Street, SW, Washington, DC 20590. We consider all comments received before the close of business on the comment closing date below. The comments will be available for your examination in the docket at the above address both before and after that date, between the hours of 10 a.m. and 5 p.m. To the extent possible, we will also
