

were not adequate and that the ROP budgets were adequate. The December 22, 1999 letter also clearly indicated that it superseded any final actions which had occurred on October 26, 1999, and that the withdrawal of the findings made on October 26, 1999 was effective immediately (December 22, 1999).

As stated above, on December 22, 1999, we informed the Commonwealth of our finding that the motor vehicle emission budgets in the Phase II SIP submitted by the Commonwealth are not adequate for the purposes of transportation conformity. Among other things, the attainment budgets, when considered together with all other emission reductions, must be consistent with applicable requirements for attainment as required in 40 CFR Part 93, § 93.118(e)(4)(iv). In making our finding that the attainment budgets are not adequate, we have preliminarily determined that the submitted Phase II attainment SIP does not fully provide for attainment. This preliminary determination is not a final agency action and is rather one of the issues in our December 16, 1999 Notice of Proposed Rulemaking (64 FR 70428).

On December 22, 1999, we also informed the Commonwealth that we found the motor vehicle emission budgets in the 1999, 2002, and 2005 ROP plan adequate since they met the review criteria in 40 CFR Part 93, § 93.118(e)(4)(i) through (e)(4)(vi) of the conformity rule.

This is an announcement of adequacy findings that we already made on December 22, 1999. The effective date of these findings is February 4, 2000. These findings will also be announced on EPA's website: <http://www.epa.gov/oms/traq> (once there, click on the "Conformity" button, then look for "Adequacy Review of SIP Submissions for Conformity"). Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they do so. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the NAAQS.

The criteria by which we determine whether a SIP's budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy finding is separate from EPA's completeness finding, and separate from EPA's finding whether or not the SIP is approvable. Even if we find a budget adequate, the SIP could later be

disapproved. We described our process for determining the adequacy of submitted SIP budgets in a guidance memorandum dated May 14, 1999 titled "Conformity Guidance on Implementation of March 2, 1999 Conformity Court Decision". We followed this guidance in making our adequacy findings for the budgets contained in the "SIP for Rate of Progress Emission Reductions and for Attainment of the NAAQS for Ozone Meeting the Requirements of the Alternative Ozone Attainment Demonstration Policy—Phase II" submitted on April 30, 1998 by PADEP. You may obtain a copy of this guidance from EPA's conformity web site referred to above or by calling the contact name listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.
