SUPPLEMENTARY INFORMATION:

I. Background

On October 18, 1999, OSHA announced its intention to request that MACOSH be rechartered for another two years. MACOSH was established to advise the Secretary on various issues pertaining to providing safe and healthful employment in the maritime industries, which include shipyard and longshoring activities. The Secretary consults with MACOSH on rulemaking issues affecting the industry, and has sought the committee's advice on other issues including streamlining regulatory efforts and improving training and outreach programs. In addition, MACOSH recommends enforcement initiatives that will help improve the working conditions and the safety and health of men and women working in the maritime industry.

II. Nominations

OSHA is seeking men and women with an interest in the safety and health of workers in the maritime industry for membership on MACOSH. Interested persons may submit their own name or the name of another whom they believe to be interested in and qualified to serve on MACOSH. The Agency is looking for nominees to represent the following interests or categories: Employees, Employers, State or Federal Safety and Health Organizations, and Professional Organizations or National Standards-Setting Groups.

OSHA seeks a broad-based and diverse membership for MACOSH. Nominations of women and minorities are encouraged. Nominations of new members or re-nominations of former or current members will be accepted in all categories of membership. Interested persons may nominate themselves or may be nominated by organizations from one of the categories listed above. Nominations should include the name and address of the candidate. Each nomination should include a summary of the candidate's training or experience relating to safety and health in the maritime industry and the interest the candidate represents.
