

(FUSRAP). The alternatives evaluated in the Feasibility Study are summarized in the Proposed Plan.

2. Project Alternatives

a. Alternative 1—No Action

Mandated by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), periodic environmental monitoring would be conducted, but no remedial action would be conducted.

b. Alternative 2—Institutional Controls

Institutional controls would be implemented to prevent unacceptable exposures to site contamination.

c. Alternative 3—Containment

Alternative 3 incorporates containment, institutional controls, and environmental monitoring to prevent contaminants from becoming mobilized and reduce the potential for direct exposure. Under this alternative, accessible contamination at the 25-foot and 36-foot levels and the beams in the high bay that are accessible from the windows would be fixed in place. When use of the building is discontinued, radiological controls would be provided for decontamination prior to demolition.

d. Alternative 4—Decontamination of Accessible Surfaces and Release of Building

This alternative includes decontamination of accessible contamination at the 25-foot and 36-foot levels and the beams in the high bay that are accessible from the window. Inaccessible areas are defined as those surfaces that cannot be accessed either from the high-bay crane or through windows. Inaccessible areas include the high bay areas above the 36-foot level and select other areas around live power lines.

3. Scoping Process

Federal, state and local agencies, and interested individuals are invited to participate in the scoping process to determine the range of issues and alternatives to be addressed. The U.S. Army Corps of Engineers will hold a public meeting to receive oral and written comments at the Madison City Hall at 615 Madison Avenue in Madison, Illinois on Thursday, February 17th, from 5 to 9 p.m. In addition, written comments will be accepted during the 30-day period following the Remedial Investigation (RI) and FS/PP release by Ms. Sharon R. Cotner, U.S. Army Corps of Engineers, St. Louis District, FUSRAP Project Office, 9170 Latty Avenue, Berkeley, Missouri 63134.

Please call (314) 524-4083 for further information.

4. Availability of the RI/FS/PP

Copies of the RI/FS/PP are available for review starting on or about January 28, 2000 until February 28, 2000 during business hours at the following locations: U.S. Army Corps of Engineers, St. Louis District, FUSRAP Project Office, 9170 Latty Avenue, Berkeley, Missouri 63134; or the Madison Public Library, 1700 5th Street, Madison, Illinois 62060, (618) 876-8448.

Written comments will be accepted during the 30-day period following FS/PP release at FUSRAP Project Office at the above address. Oral comments may be provided at the Public Meeting on Thursday, February 17th, from 5 to 9 p.m. at the Madison City Hall at 615 Madison Avenue in Madison, Illinois. Please contact the Corps of Engineers, St. Louis District, FUSRAP Project Office for more information at (314) 524-4083.

Availability of RI/FS/PP.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared January 10, 2000 Through January 14, 2000 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 9, 1999 (63 FR 17856).

Draft EISs

ERP No. D-AFS-L65333-OR Rating EC2, Five Rivers Watershed Landscape Management Project, To Restore Terrestrial and Aquatic Habitat, Special-Use-Permit, Siuslaw National Forest, Waldport Ranger District, Lincoln and Lane Counties, OR.

Summary: EPA expressed concerns regarding potential water quality impacts from roads, increased logging, and entry into riparian buffers. EPA

requested the Forest Service discuss these concerns in the FEIS.

ERP No. D-BLM-G65071-NM Rating LO, Albuquerque Field Office Riparian and Aquatic Habitats Management, To Restore and Protect, Rio Puerco Resource Management Plan Amendment (RMPA), Cibola, Sandoval, McKinley, Rio Arriba, Bernalillo, Valencia and Santa Fe Counties, NM.

Summary: Because the EIS is programmatic in content and the alternatives considered promote environmental enhancement, EPA has limited its review to insure that the DEIS meets the minimal administrative and procedural requirements established by the NEPA and CEQ Regulations and finds the DEIS to satisfy these requirements and takes no position on the preferred action or the alternatives.

ERP No. D-BLM-G65073-NM Rating LO, Farmington Field Office Riparian and Aquatic Habitat Management, To Restore and Protect, Farmington Riparian and Aquatic Habitat Management Plan, San Juan, McKinley, Rio Arriba and Sandoval Counties, NM.

Summary: Since the EIS is programmatic in content and the alternatives considered promote environmental enhancement, EPA Region 6 has limited its review to ensure that the DEIS meets the minimal administrative and procedural requirements established by NEPA and CEQ Regulations. EPA's limited review finds the DEIS to satisfy these requirements and takes no position on the preferred action or the alternatives.

ERP No. D-FRC-F03007-00 Rating EO2, TriState Pipeline Project, Construction and Operation of Natural Gas Pipeline Facilities, Docket Nos.: CP99-61-000, CP99-62-000, CP99-63-000 and CP99-64-000, Presidential Permit, IL, IN and MI.

Summary: EPA expressed environmental objections with the project. The issues raised include alternatives evaluation, waterbody crossings, sole source aquifer, wetland and woodland impacts and mitigation.

ERP No. D-FRC-J05079-00 Rating EC2, Cabinet Gorge (No. 2058-014) and Noxon Rapids (No. 2075-014) Hydroelectric Project, Relicensing, MT and ID.

Summary: EPA expressed environmental concerns regarding continuation of potential adverse impacts to bull trout, and bank and shoreline erosion and aquatic habitat degradation that results from project operations. EPA also believes further information is needed to explain why a minimum flow release from Noxon Rapids Dam was not recommended.

EPA believes the USFWS recommended terms and conditions to protect the bull trout should be included as license conditions, and that corrective actions need to be developed to address bank and shoreline erosion problems.

ERP No. D-NPS-H65007-KS Rating LO, Tallgrass Prairie National Preserve General Management Plan, Implementation, Flint Hills Region, Chase County, KS.

Summary: EPA had a lack of objections to the proposed project.

Final EISs

ERP No. F-FHW-C40142-NY US-20/ Broadway (Transit Road to Lancaster East Village Line) Reconstruction, Funding, COE Section 10 and 404 Permit, in the Villages of Depew and Lancaster, Erie County, NY.

Summary: EPA has no further issues with the project.

ERP No. F-FHW-F40365-WI US 151 Highway Project, from Dickeyville to Belmont, Improvements, Funding and COE Section 404 Permit, Grant and Lafayette Counties, WI.

Summary: The FEIS addressed EPA's previous comments on wetlands, floodplains and other resources.

Dated: January 27, 2000.
