

Type and Number of Anticipated Awards

It is the Government's intent to award approximately seven (7) to ten (10) Cooperative Agreements under this solicitation with a maximum estimated DOE funding of \$500,000 per year for each Cooperative Agreement up to a three (3) year period, subject to the availability of funds. Total estimated Government funding for the solicitation is approximately \$10 million for the maximum three-year period.

Application Requirements

Teaming arrangements will be required. Applications, which do not propose a teaming arrangement of at least two glass industry companies, will not be evaluated. A "glass industry company" is defined as a private (profit or non-profit) organization that manufactures glass and allied products or provides products or services to such manufacturers. In addition, raw material suppliers, equipment and technology suppliers, architectural and engineering companies, software and consulting firms, trade and professional associations, and research institutes, that routinely conduct a minimum of 10% of their business with glass industry manufacturers are within the scope of the definition.

Teams may also include, but are not limited to, universities, trade associations, DOE National Laboratories, and small businesses which facilitate technology transfer to the private sector, promote commercialization, and enhance U.S. competitiveness. Any non-profit or for-profit organization, university or other institution of higher education, or non-federal agency or entity is eligible to apply unless otherwise restricted by the Simpson-Craig Amendment.

Applicants are required to cost share a minimum of 50% of the total project costs to be incurred under the proposed project to be eligible for award under this solicitation. The minimum cost share requirement of 50% must be met for each year, phase, or budget period, as appropriate, under the proposed project. Teaming arrangements with DOE National Laboratories must be such that the Laboratory participation may not exceed 50% of the total estimated cost of the project.

In addition to the foregoing, other evaluation and selection criteria will be developed in accordance with 10 CFR 600.10—Form and Content of Applications and 10 CFR 600.13—Merit Review.

Issued in Argonne, Illinois, on January 20, 2000.

John D. Greenwood,
Manager, Acquisition and Assistance Group.
