ENVIRONMENTAL PROTECTION AGENCY

[FRL-6531-4]

Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses; Approval of an Application for Certification of Equipment

AGENCY: Environmental protection agency (EPA).

ACTION: Notice of agency approval of an application for equipment certification.

SUMMARY: The Agency received a request to amend a notification of intent to certify urban bus retrofit/rebuild equipment for 4-stroke petroleum fueled diesel engines pursuant to 40 CFR part 85, subpart O from Engelhard

Corporation (Engelhard). Engelhard requested to amend the original notification to include additional engine models. Pursuant to section 85.1407(a)(7), a November 30, 1998 **Federal Register** document summarized the amendment and announced that the amendment request and accompanying data would be available for public review and comment, and initiated a 45-day period during which comments could be submitted. In the document, the Agency stated it would review this request to amend the notification of intent to certify, as well as comments received, to determine whether the equipment should be certified for the additional models.

EPA has completed its review of this amendment request and the Director of the Certification and Compliance Division (CCD) has determined that the requirements for certification have been met. Accordingly, today's **Federal Register** document describes the certification of this equipment for the engine models listed in Table C of this document.

Testing documentation presented to the Agency demonstrates a reduction in particulate matter (PM) of at least 25% for the engines listed in Table C. Life cycle cost information was not submitted by Engelhard and this approval does not trigger requirements for the additional models. Certification of this equipment makes it available for operators complying with the 25% particulate matter reduction requirements of compliance program 1 and may also be used by operators utilizing program 2 to achieve target fleet emission levels.

DATES: Today's **Federal Register** document announces the Agency's decision to certify the CMX equipment for certain 4 stroke/cycle urban bus engines. The effective date of certification was established in a letter dated November 30, 1999 from the Director of the Certification & Compliance Division to Engelhard Corporation. A copy of this letter is in the public docket located at the address noted above. This equipment may be used immediately by urban bus operators.

ADDRESSES: The application, as well as other materials specifically relevant to it, are contained in Public Docket A-93-42 (Category XVII-A), entitled "Certification of Urban Bus Retrofit/Rebuild Equipment". This docket is located in room M-1500, Waterside Mall (Ground Floor), U.S. Environmental Protection Agency, 401 M Street SW, Washington, DC 20460.
