VI. Notification of Intent To Revoke Tolerances

This Notice also announces that the Agency intends to propose revocation of the related tolerances following the cancellation of the uses listed in this Notice unless there is a request to modify or maintain it as an import tolerance. There are no current registered uses for bendiocarb on food crops in the United States; however, there are non-numerical tolerances for its use on spot and/or crack and crevice treatment in food and feed handling establishments (40 CFR 180.530). EPA's reregistration eligibility assessment indicated that substantial additional data would be required to support continued use of bendiocarb on all types of food- and feed-handling establishments, except the food service category of food handling establishments—the only use supported by current data. Also, finite (numerical) tolerances would have to be proposed.

The Agency is willing to consider requests to modify or maintain a tolerance following the cancellation of the accompanying registration. Such request should be sent to the person listed in the **FOR FURTHER INFORMATION CONTACT** above. If EPA receives a request to modify or maintain a tolerance in response to this Notice, the Agency will issue a notice under section 408(f) of FFDCA informing the public of the data required to support the tolerance and stating the time period for submitting the required data. Regardless of whether a tolerance applies solely to domestic food uses or solely to imported foods, the same technical chemistry and toxicology data are required to support tolerances under FFDCA section 408. For pesticide chemicals used in or on food, EPA requires residue chemistry data that are representative of growing conditions in exporting countries in the same manner that the EPA requires representative residue chemistry data from different U.S. regions to support domestic use of the pesticide and the tolerance. Persons supporting the maintenance or modification of tolerances to cover residues in or on imported food have the burden of demonstrating the relevance of any existing domestic data to foreign growing or usage conditions.

If EPA does not receive any indication of a need to retain a tolerance following the cancellation of the registered food use, the Agency will publish in the **Federal Register** a notice proposing to revoke the tolerance. That notice will again give interested parties the

opportunity to come forward to support the maintenance of the tolerance.

Virginia's Continuing Planning Process (CPP)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and public comment.

SUMMARY: The Environmental Protection Agency (EPA) is providing public notice of the availability of Virginia's Continuing Planning Process (CPP). The following processes, at a minimum, must be described in the CPP: the process for the development of effluent limitations and schedules of compliance at least as stringent as those required by section 301(b)(1), section 301(b)(2), section 306, and section 307 of the Clean Water Act ("CWA" or "Act"), and at least as stringent as any requirements contained in any applicable water quality standard in effect under authority of section 303 of the Act; the process for the incorporation of all elements of any applicable areawide waste management plans under section 208 of the Act, and applicable basins plans under section 209 of the Act; the process for developing total maximum daily loads for pollutants in accordance with subsection (d) of section 303 of the Clean Water Act; procedures for revision; the process for adequate authority of intergovernmental cooperation; adequate implementation, including schedules of compliance, for revised or new water quality standards, under subsection (c) of section 303 of the Act; the process for the controls over the disposition of all residual waste from any water treatment processing; the process for developing an inventory and ranking, in order of priority, of needs for construction of waste treatment works required to meet the applicable requirements of sections 301 and 302 of the Clean Water Act.

The public comment period will be open until September 1, 2000. EPA

intends to complete its preliminary review and submit comments on the CPP, to Virginia and others, including interested parties requesting a copy of such comments, by May 1, 2000. By November 1, 2000, EPA shall complete its review of Virginia's CPP to determine if it is consistent with the Clean Water Act and its implementing regulations. EPA will provide a summary of its review to Virginia and others, including interested parties requesting a copy of such summary.

DATES: Comments must be received on or before September 1, 2000.

ADDRESSES: Submit comments to Lenka Berlin (3WP13), Water Protection Division, USEPA Region III, 1650 Arch Street, Philadelphia, PA 19103.
