SECURITIES AND EXCHANGE COMMISSION

Requests Under Review by Office of Management and Budget

[Extension: Rule 2a-7, SEC File No. 270-258, OMB Control No. 3235-0268]

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Notice is hereby given that under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501), the Securities and Exchange Commission (the "Commission") has submitted to the Office of Management and Budget ("OMB"), a request for extension of approval for rule 2a-7 (17 CFR 270.21-7) under the Investment Company Act of 1940 (15 U.S.C. 80a) (the "Act").

Rule 2a-7 governs money market funds. Money market funds are open-end management investment companies that differ from other open-end management investment companies in that they seek to maintain a stable price per share, usually \$1.00. The rule exempts money market funds from the valuation requirements of the Act and, subject to certain risk-limiting conditions, permits money market funds to use the "amortized cost method" of asset valuation or the "penny-rounding method" of share pricing.

Rule 2a-7 imposes certain recordkeeping and reporting obligations on money market funds. The board of directors of a money market fund, in supervising the fund's operations, must establish written procedures designed to stabilize the fund's net asset value ("NAV"). The board also must adopt guidelines and procedures relating to certain responsibilities it delegates to the fund's adviser. These procedures and guidelines typically address various aspects of the fund's operations. The fund must maintain and preserve for six years a written copy of both procedures and guidelines. The fund also must maintain and preserve for six years a written record of the board's considerations and actions taken in connection with the discharge of its responsibilities, to be included in the board's minutes. In addition, the fund must maintain and preserve for three years written records of certain credit risk analyses, evaluations with respect to Securities subject to demand features or guarantees, and determinations with respect to adjustable rate securities an asset backed securities. If the board takes action with respect to defaulted securities, events of insolvency, or deviations in share price, the fund must file with the Commission an exhibit to Form N-SAR describing the nature and circumstances of the action. If any portfolio security fails to meet certain eligibility standards under the rule, the fund also must identify those securities in an exhibit to Form N-SAR. After certain events of default or insolvency relating to a portfolio security, the fund must notify the Commission of the event and the actions the fund intends to take in response to the situation.

The recordkeeping requirements in rule 2a-7 are designed to enable Commission staff in its examinations of money market funds to determine compliance with the rule, as well as to ensure that money market funds have established procedures for collecting the information necessary to make adequate credit reviews of securities in their portfolios. The reporting requirements of rule 2a-7 are intended to assist Commission staff in overseeing money market funds.

Commission staff estimates that 949 money market funds are subject to rule 2a-7 each year.¹ The staff estimates that each of these funds spends an average of 336 hours each year to document credit risk analyses, and determinations regarding adjustable rate securities, asset backed securities, and securities

¹ This estimate is based on information in the Visions98 database, compiled by IBC Financial Data, Inc. (Oct. 22, 1999).
