Tannika Engelhard at the above Austin Ecological Service Field Office.

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species such as the Houston toad. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

Applicant

Cornerstone Construction plans to construct one single family residence each on Lot 17, Section 5 and Lot 21, Section 6 in the Circle D Country Acres Subdivision, Bastrop County, Texas. This action will eliminate less than one acre of habitat and result in an unquantifiable amount of indirect impact. The applicant proposes to compensate for this incidental take of the Houston Toad by contributing \$3,000.00 (\$1,500.00 for each homesite) to the National Fish and Wildlife Foundation for the specific purpose of land acquisition and management within Houston toad habitat, as identified by the Service.

Alternatives to this action were rejected because not developing the subject property with federally listed species present was not economically feasible and alteration of the project design would not alter the level of impacts.

Thomas L. Bauer,
Regional Director, Region 2, Albuquerque, New Mexico.
